Department of Electronics and Communication Engineering

Subject: Expert Talk

Department of Electronics and Communication Engineering have organizing an expert talk on “**Research Ethics in Research Methodology**” on 8th March 2019. The objective of an expert talk on research ethics in research methodology is to create awareness, promote understanding, and enhance knowledge about the ethical considerations in research, and encourage responsible conduct of research among researchers and students. It aims to foster a research culture that upholds high ethical standards, promotes integrity, and ensures that research is conducted in a responsible and morally sound manner.

Organized by

Electronics and Communication Engineering Department

Department: Electronics & Communications

Activity: Expert Session on “Research Ethics in Research Methodology”

Held On: 8th March 2019

Venue: Room No. 115, First Floor, Engineering Institute

Guest Speaker: Dr. Rakhi Bhardwaj, Associate Professor, GNIOT, Gr. Noida

The Departments of Electronics and Communication Engineering organized an expert talk on "Research Ethics in Research Methodology" on 8th March 2019. The talk was delivered by Dr. Rakhi Bhardwaj, a renowned researcher and expert in the field of research ethics. The event was held at the department premises and was attended by faculty members, research scholars, and students. The expert talk commenced with a warm welcome by the head of the department, followed by an introduction of the speaker, Dr. Rakhi Bhardwaj. Dr. Bhardwaj is a well-known figure in the field of research ethics and has extensive experience in conducting research and promoting responsible research practices.

Dr. Bhardwaj started the talk by emphasizing the importance of research ethics in the field of research methodology. She highlighted the significance of conducting research with integrity, transparency, and accountability, and how ethical considerations play a vital role in ensuring the credibility and validity of research findings. The talk covered various aspects of research ethics, including informed consent, confidentiality, data protection, plagiarism, authorship, conflicts of interest, and bias. Dr. Bhardwaj provided insights on how to identify and address these ethical issues effectively during the research process. She also shared real-life examples and case studies to illustrate the practical implications of research ethics in different research scenarios.

Dr. Bhardwaj further discussed the ethical considerations in the use of human subjects, animal subjects, and data collection and analysis. She emphasized the need for researchers to follow ethical guidelines and regulations set by relevant authorities, such as institutional review boards (IRBs) and ethical committees, to ensure the ethical conduct of research.

The talk also focused on enhancing ethical decision-making skills among researchers and students. Dr. Bhardwaj provided participants with tools and strategies for making ethical decisions in research, including critical thinking, ethical reasoning, and problem-solving skills. She also encouraged participants to engage in discussions and ask questions to clarify any doubts related to research ethics.

The expert talk concluded with a Q&A session where participants actively participated and raised questions on various ethical issues in research. Dr. Bhardwaj thoughtfully answered the questions and provided further insights on research ethics.

The event received positive feedback from the participants, who appreciated the speaker's knowledge and expertise in the field of research ethics. The expert talk was successful in creating awareness, promoting understanding, and encouraging responsible conduct of research among the participants. In conclusion, the expert talk on "Research Ethics in Research Methodology" by Dr. Rakhi Bhardwaj organized by the Departments of Electronics and Communication Engineering was a highly informative and impactful event. It contributed towards creating a research culture that upholds high ethical standards and promotes responsible conduct of research among researchers and students.

Department of MCA

Startup Lecture (2019)

“Change will not come if we wait for some other person or some other time. We are the ones we’ve been waiting for. We are the change that we seek.”

Small steps lead to big things, and dreaming about your own business is one of those first, small steps. All of the planning and work you do every day, no matter how menial it might seem, will be the things that set you up for your future. Put your best foot forward every step of the way, and one day you'll be grateful for the solid foundation you've laid, and maybe even astounded by what you've built.

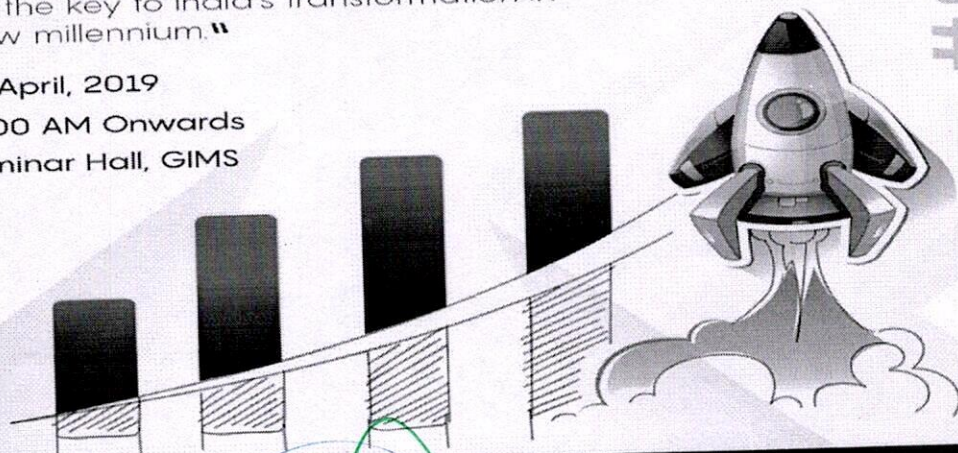

The Department of MCA has been organized the Lecture on Startup on 26/04/2019 at GNIOT GROUP OF INSTITUTIONS seminar hall. The drive has been executed in presence of respected director Dr. Dhiraj Gupta, Faculty members, Staffs and Students of MCA 1st Year and 2nd Year.

STARTUP LECTURE

“The success of the young entrepreneur will be the key to india’s transformation in the new millennium.”

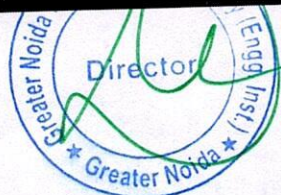

- 📅 26 April, 2019
- 🕒 11:00 AM Onwards
- 📍 Seminar Hall, GIMS

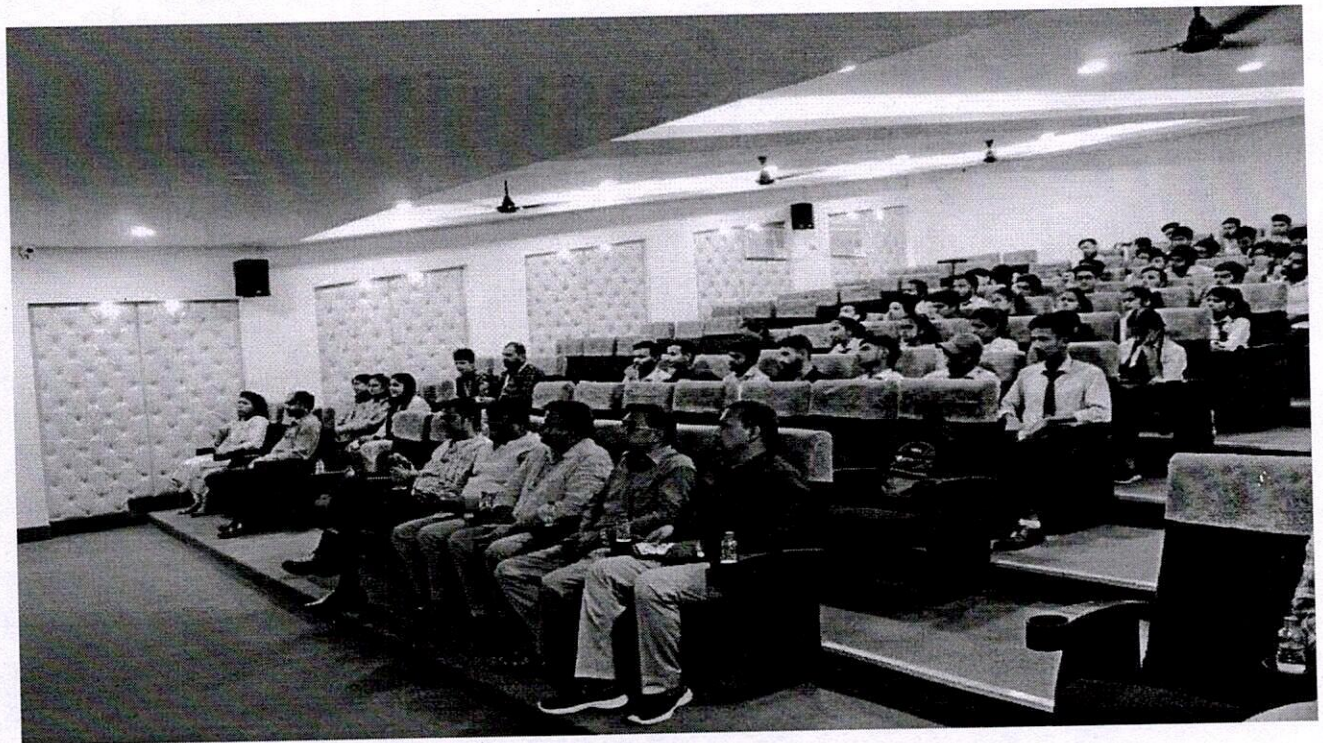

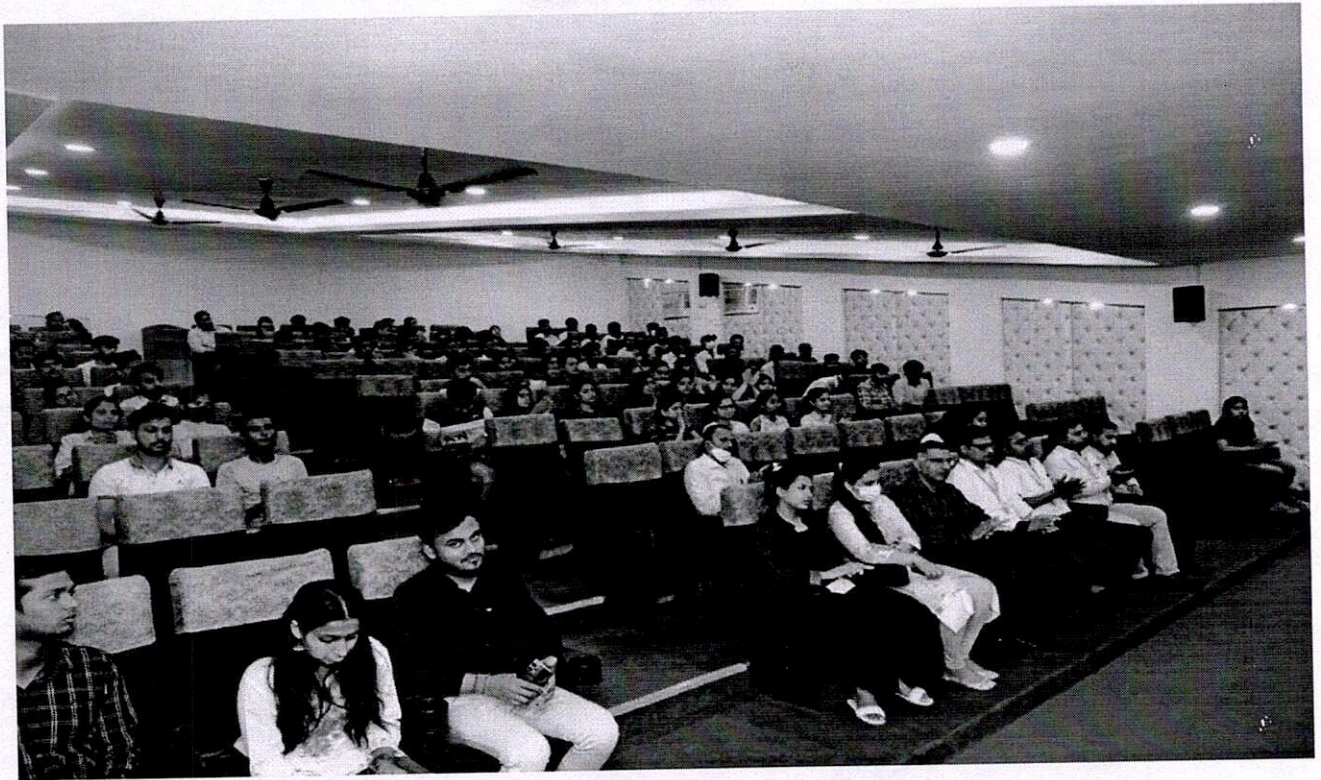

#STARTUP

16 July 2019

Organized by

**Department of Civil Engineering
Greater Noida Institute of Technology, Greater Noida**

**EVENT TITLE: WORKSHOP ON PATENTS & MANAGEMENT FOR STARTUPS IN
CIVIL ENGINEERING**

Expert: Mr. Sugandh Singh

Date of Event: - 27th July 2019

Report

The Workshop on Patents & Management for Startup in Civil Engineering was held on 27th July 2019 at the first-floor seminar hall and was attended by 24 student participants. The objective of the workshop was to educate the startup community in the civil engineering industry about the importance of patents and intellectual property management.

Keynote Speakers:

The workshop began with a keynote speech by Mr. Sugandh Singh, who is a seasoned patent attorney with extensive experience in patent litigation and prosecution. The speaker provided an overview of the patent system and its importance in protecting the intellectual property rights of inventors. The speaker also discussed the challenges faced by inventors and startups in obtaining and enforcing patents in the civil engineering industry.

The next keynote speaker was Mr. Indrajeet Singh, who is a civil engineering expert with vast experience in managing and commercializing intellectual property. The speaker provided an overview of the importance of intellectual property management in the civil engineering industry and discussed the best practices for managing intellectual property in a startup environment.

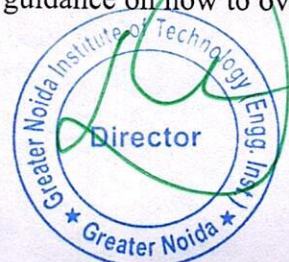

Sessions and Workshops:

After the keynote speeches, the workshop was divided into several sessions and workshops. The sessions covered topics such as patent law, patentability criteria, patent infringement, and the impact of patents on civil engineering startups. Each session was led by an expert in the respective field who provided in-depth knowledge and answered questions from the participants.

The workshops were designed to provide hands-on experience to the participants. The workshops covered topics such as patent drafting, patent search strategies, and IP valuation. The participants were given practical exercises to work on and were provided with feedback on their work.

Panel Discussion:

The workshop concluded with a panel discussion on the topic of patent management for civil engineering startups. The panel included experts from different fields, including patent attorneys, civil engineering experts, and venture capitalists. The panel discussed the challenges faced by startups in managing their intellectual property and provided guidance on how to overcome these

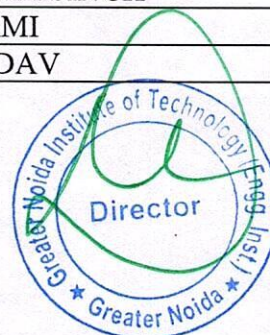

challenges. The panel also addressed the importance of commercializing intellectual property and discussed the different strategies for doing so.

Conclusion & Summary of the event:

The Workshop on Patents & Management for Startup in Civil Engineering was a great success. The participants gained valuable knowledge and practical experience that they can use to protect their intellectual property and manage it effectively. The workshop also provided an opportunity for the participants to network with experts in the field and learn from their experiences. Overall, the workshop was a valuable resource for the startup community in the civil engineering industry and helped to raise awareness about the importance of intellectual property management.

COURSE No. & TITLE:

- Developing Online Repository of Start-ups Developed / incubated and Way Forward Plan

PARTICIPANTS:

All IT Engineering Students & Faculty members

OBJECTIVES:

The underline purpose of this event was to provide engineering students with a perspective of entrepreneurship. How these students could use their technical skills in building a new idea.

Expert:

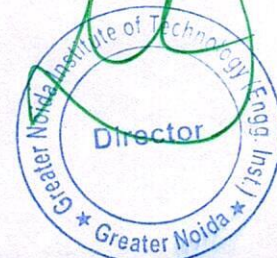

Mr. Shibananda Dash

- The resource person of this session was Mr. Shibananda Dash Chief Executive Officer (CEO) NITJ TBI.

Profile of the Expert

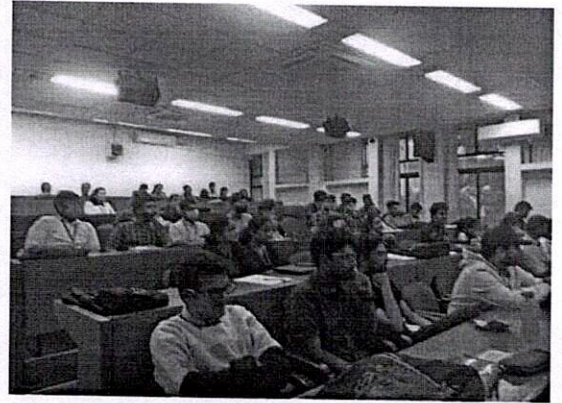

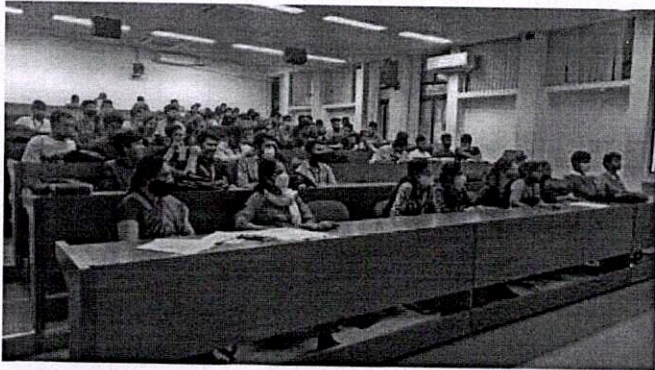

Shibananda Dash graduated from NIT Rourkela. He had two management degrees in Entrepreneurship and International business. He is the gold medalist at IIM Kashipur and worked as the CEO of IIM Kashipur for 3 yrs before joining NIT Jalandhar. Mr. Dash has a total 15 years of experience. He is a dropout of Texas A&M University and am a published writer. His first novel was Never Apart. His hobby is quizzing and was the runner up in Tata Crucible Regional Business quiz held in Dehradun.

Report

“Every start-up has a chance to change the world, by bringing not just a new product, but an entirely new institution into existence”

Department of Information Technology is organized a session on “Developing Online Repository of Start-ups Developed/incubated and Way forward Plan” in association with Institute’s Innovation Council (IIC) on 23rd August,2019 from 11:00 am to 1:00 pm.

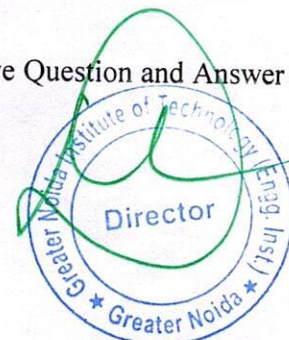

The resource person of this session was Mr. Shibananda Dash Chief Executive Officer (CEO) NITJ TBI. Mr. Shibananda is the gold medalist at IIM Kashipur and worked as the CEO of IIM Kashipur for 3 yrs before joining NIT Jalandhar. He has a dropout of Texas A&M University and is a published writer.

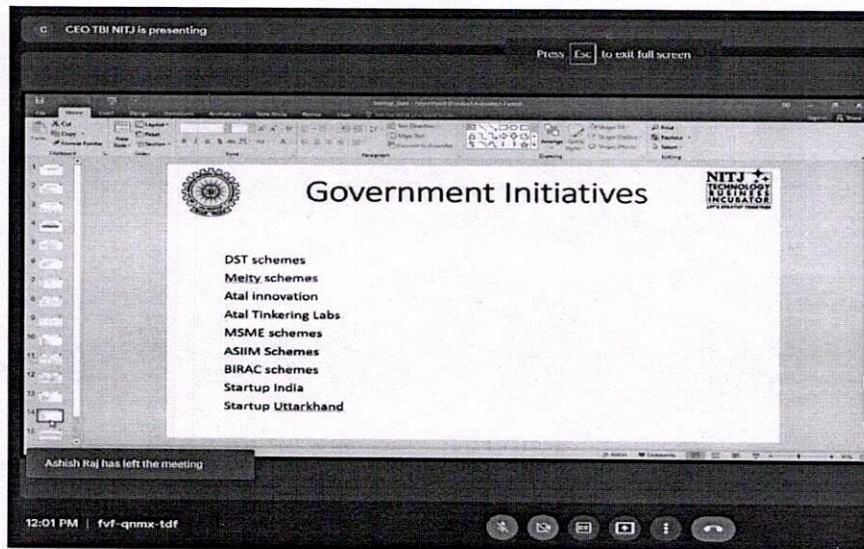

The objective of this webinar is to help the students to incubate the idea to promote and Develop Online Repository of new technology/ knowledge/ innovation-based startups.

Dr.Manoj Singhal, HoD-IT welcomed the guest and addressed the students. Dr.Manoj Singhal also proposed a Vote of thanks to the Management for their unconditional support and to Director sir for being always supportive and spreading the light of Knowledge.

Mr. Shibananda Dash explained that Developing Online repositories of Start-ups Developed/Incubated and Way Forward Plan are a new breed of services and software, still in their nascence. The technology is constantly changing and new information on building and running these services is published all the time. The information is meant to help young minds sort through this sea of information and all the requirements to get started with the startup.

The Event was backed –up from the participant end with an interactive Question and Answer session. The session was very Intellectual, fruitful and Interactive.

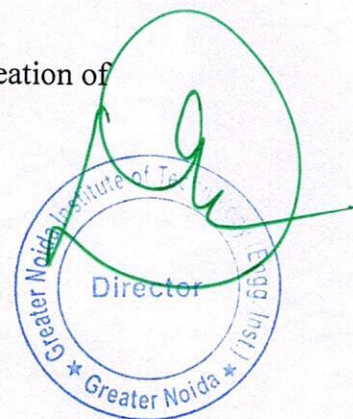

The anchor of the session was Ms. Deepali Gaur, IT 3rd Year Student. The program was concluded by vote of Thanks by Ms. Shipra srivastav, Assistant Professor IT. The session was attended by more than 65 students and all faculty members of IT.

Outcome of the Program

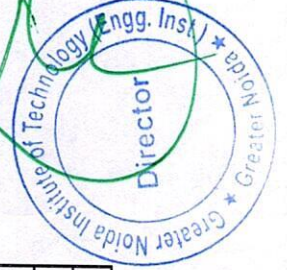

- Adapting lifelong learning of self-employment.
- Educating the students about the pivotal role of presenting their ideas in front of other students.
- Imparting knowledge oriented towards the creation of startups by the means of education.

REPORT

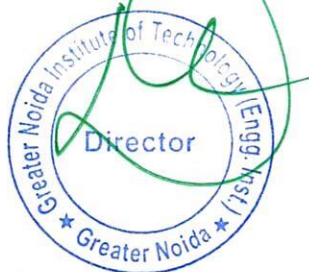

Fundamental Knowledge on Research Methodology

29th August 2019

Organized by

Mechanical Engineering Department

Date: 29th August 2019

Location: College Campus

Organizers: Mechanical Engineering Department

Objective: To aware the students the basic Knowledge on Research Methodology in present scenario. They will be more familiar with the terms like Qualitative, quantitative, primary, secondary, descriptive, experimental etc.

Activities:

- Mr. Rajeev Kumar delivered expert lecture on basic knowledge on Research Methodology.

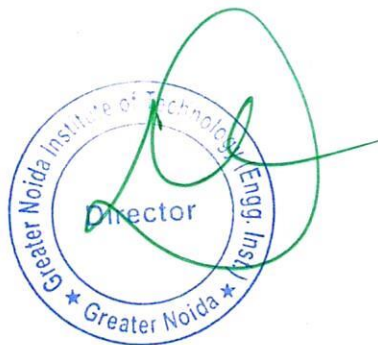

Participants:

- Students of Mechanical Engineering.

Outcomes:

- A total of 56 students were present in the activity.
- Students were seen very enthusiastic in learning the today's buzz words on basic knowledge on Research Methodology.

Conclusion: A seminar on "Fundamentals of Entrepreneurship" was delivered by Mr. Rajeev Kumar in the Mechanical Engineering Department, GNIOT Gr. Noida was a great success. This event was successfully organized under the guidance of Director Prof. (Dr.) Rohit Garg, HOD Mechanical Prof. (Dr.) Sudhir Kumar, and other faculty members. The event was coordinated by Mr. Anuj Dixit.

Fundamental Knowledge on IPR

09th October 2019

Organized by

Mechanical Engineering Department

Date: 09th October 2019

Location: MED, College Campus

Organizers: Mechanical Engineering Department

Objective: To aware the students the basics of Fundamental Knowledge on IPR in present scenario. They will be more familiar with the terms like Patents, Domain names, Industrial design, Inventions, Moral rights, Database rights, Works of authorship, Service marks, Logos, Trademarks Design rights etc.

Activities:

- Mr. Manoj Sharma delivered expert lecture on basics of IPR

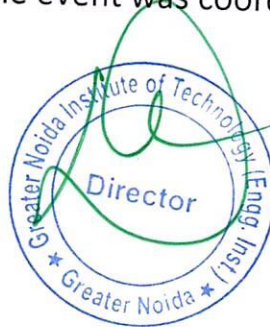

Participants:

- Students of Mechanical Engineering.

Outcomes:

- A total of 32 students were present in the activity.
- Students were seen very enthusiastic in learning the today's buzz words on IPR.

Conclusion: A seminar on "Fundamental Knowledge on IPR" was delivered by Mr. Manoj Sharma in the Mechanical Engineering Department, GNIOT Gr. Noida was a great success. This event was successfully organized under the guidance of Director Prof. (Dr.) Rajesh Goel, HOD Mechanical Prof. (Dr.) Sudhir Kumar, and other faculty members. Department of Electronics and Communication Engineering

Subject: Expert Talk

Department of Electronics and Communication Engineering have organizing an expert talk on “Choosing the Right Form of Protection Patent vs. Copyright vs. Trademark vs. Design” on 5th October 2019. The objective of the expert talk is to empower the audience with knowledge and insights on the different forms of intellectual property protection and help them make informed decisions when choosing the right form of protection for their products, inventions, creations, or brands.

Venue: Ground Floor Seminar Hall

Date & Time: 5th October 2019 (Tuesday) at 03:30 PM

REPORT

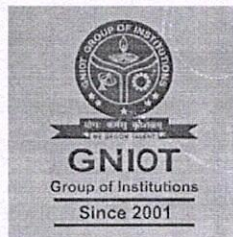

EXPERT TALK

on

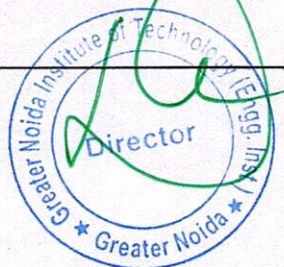

“Choosing the Right Form of Protection Patent vs. Copyright vs. Trademark vs. Design”

5th October 2019

Organized by

Electronics and Communication Engineering Department

Department: Electronics & Communications

Activity: Expert Lecture on “Choosing the Right Form of Protection Patent vs. Copyright vs. Trademark vs. Design”

Held On: October 5, 2019

Venue: GNIOT, GREATER NOIDA

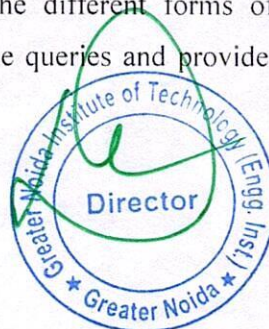

Guest Speaker: Mr. Nitin Kumar Singh

The Departments of Electronics and Communication Engineering organized a webinar on "Choosing the Right Form of Protection: Patent vs. Copyright vs. Trademark vs. Design" on 5th October 2019. The webinar was conducted by Mr. Nitin Kumar Singh, a renowned expert in the field of intellectual property rights (IPR). The session was held online and was attended by faculty members, research scholars, students, and other interested participants.

The webinar started with a warm welcome by Dr. Shelly Grag, the Head of the Department, who emphasized the importance of understanding the different forms of intellectual property protection and making informed decisions when choosing the right form of protection for various products, inventions, creations, or brands. She introduced Mr. Nitin Kumar Singh as the speaker for the webinar and expressed her gratitude for his participation.

Mr. Nitin Kumar Singh then took over and commenced the session by providing a detailed overview of the different forms of intellectual property protection, including patents, copyrights, trademarks, and designs. He explained the basic concepts, legal requirements, scope, advantages, and limitations of each form of protection. He also highlighted the key differences between them and shared practical examples and case studies to illustrate their application in real-world scenarios.

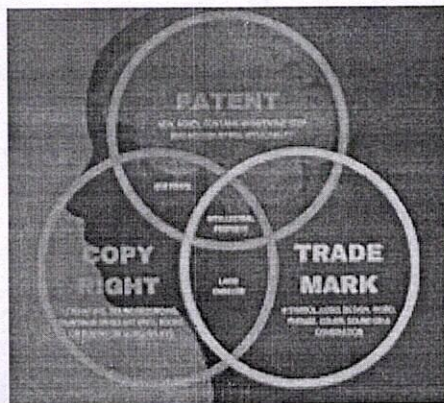

Mr. Singh discussed the factors to consider when choosing the right form of protection, such as the nature of the product or invention, the level of innovation or creativity involved, the market positioning, the duration of protection, and the registration process. He emphasized the need to conduct thorough research, seek professional advice, and carefully evaluate the specific requirements and goals of the product or invention before making a decision on the form of protection. The webinar was interactive, with participants actively engaging in discussions and asking questions related to the different forms of intellectual property protection. Mr. Singh patiently addressed all the queries and provided valuable insights on the subject matter.

Ground Floor Seminar Hall GNIOT, Greater Noida

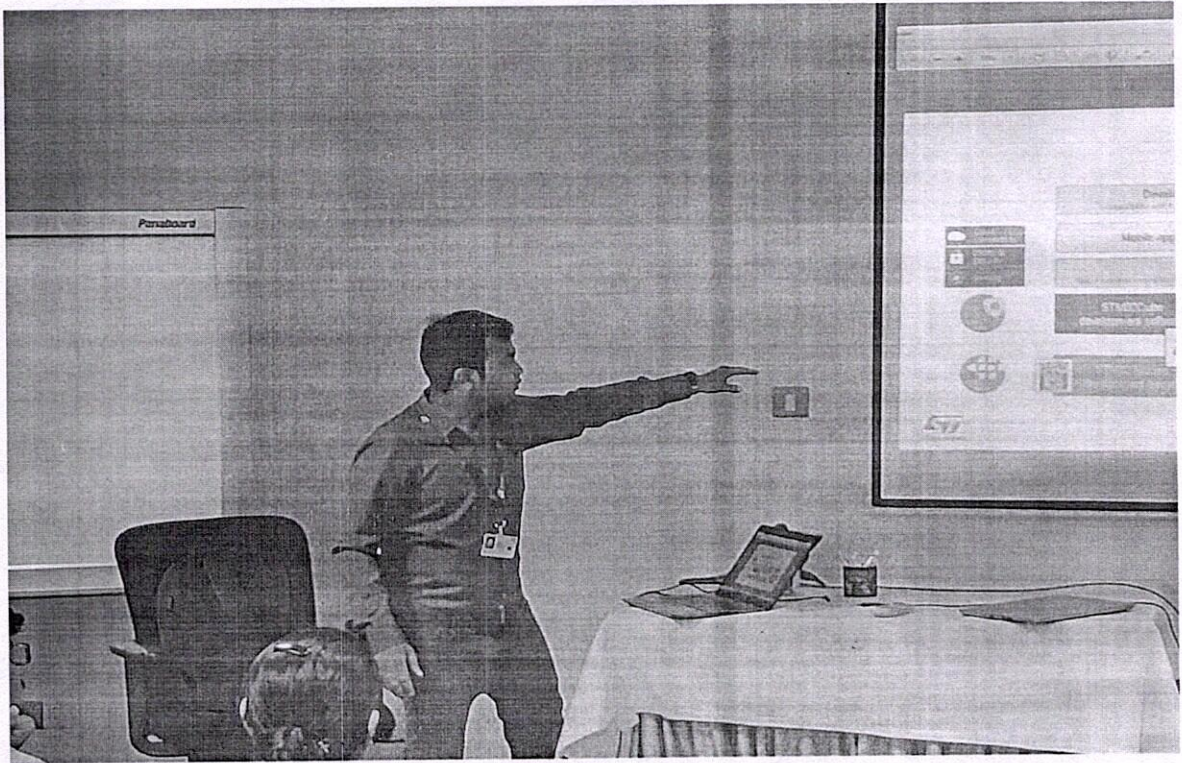

Plot No. 7, Knowledge Park II, Greater Noida, (UP) 201306 | www.gniotgroup.edu.in | 1800-274-6969

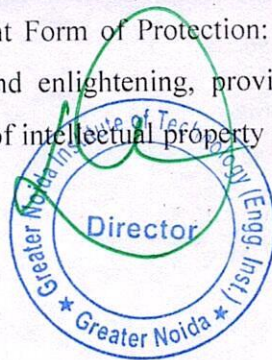

The session concluded with a vote of thanks by Dr. (Prof.) Rajesh Goel, the Director, expressing gratitude to Mr. Nitin Kumar Singh for sharing his expertise and providing valuable knowledge on choosing the right form of protection for intellectual property. He also thanked the participants for their active participation and encouraged them to apply the knowledge gained from the webinar in their academic and professional endeavors.

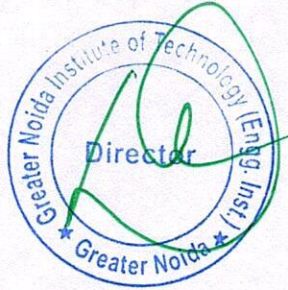

Overall, the webinar on "Choosing the Right Form of Protection: Patent vs. Copyright vs. Trademark vs. Design" was informative and enlightening, providing participants with a deeper understanding of the different forms of intellectual property protection and the factors

to consider when making decisions on the appropriate form of protection. The event was well-received by the participants, and the knowledge gained from the session is expected to positively impact their understanding and practice of intellectual property rights in their respective fields.

“Future Mobile Trends in Entrepreneurship”

15th October 2019

Organized by

Electronics and Communication Engineering Department

Department: Electronics & Communications

Activity: Expert Lecture on "Future Mobile Trends in Entrepreneurship"

Held On: October 15, 2019

Venue: GNIOT, GREATER NOIDA

Guest Speaker: Mr. Abhishek Gupta, Assistant Director, ALTTC Ghaziabad

The expert talk on "Future Mobile Trends in Entrepreneurship" was organized by the Departments of Electronics and Communication Engineering at GNIOT Campus on 15th October 2019. The talk was delivered by Mr. Abhishek Gupta, Assistant Director at ALTTC Ghaziabad, and was welcomed by Dr. Shelly Garg, Head of the Department.

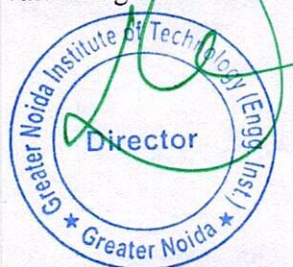

The event commenced with Dr. Shelly Garg welcoming the audience, which included faculty members, students, and aspiring entrepreneurs from the department and other related disciplines. She highlighted the importance of staying updated with the latest trends in mobile technology, and how it can impact the entrepreneurial landscape in the future.

Mr. Abhishek Gupta, the esteemed speaker, began his talk by providing an overview of the current and emerging trends in mobile technology that are expected to shape the future of entrepreneurship. He discussed various areas such as mobile apps, mobile payments, mobile marketing, augmented reality (AR) and virtual reality (VR), Internet of Things (IoT), artificial intelligence (AI), and blockchain, and their potential applications in the entrepreneurial ecosystem.

Mr. Gupta elaborated on how these mobile trends are disrupting traditional industries and creating new opportunities for entrepreneurs. He shared examples of successful mobile-driven business models and startups that have leveraged these trends to achieve remarkable success. He also discussed the challenges and implications of these trends, such as data security, privacy concerns, and regulatory compliance, and how entrepreneurs can navigate them.

The talk also focused on the importance of strategic planning and adaptability in the rapidly changing mobile landscape. Mr. Gupta emphasized the need for entrepreneurs to stay updated with the latest mobile trends, continuously innovate, and develop mobile-centric business strategies to stay ahead of the competition.

The session was interactive, with students and aspiring entrepreneurs actively engaging in discussions, asking questions, and seeking insights from the speaker. Mr. Gupta patiently answered all the queries and provided valuable guidance and suggestions to the audience.

The talk concluded with Dr. Shelly Garg expressing her gratitude to Mr. Abhishek Gupta for sharing his valuable knowledge and insights on future mobile trends in entrepreneurship. She also encouraged the audience to leverage the learnings from the talk to stay updated with the changing landscape of mobile technology and harness its potential for entrepreneurial success.

Innovative Projects as a Product

Date: 11.11.2019

GNIOT-Institution's Innovation Council in collaboration with ECE & EE department had organized a workshop on "Innovative Projects as a Product" on 11.11.2019 at 3:30 PM under the guidance of our dynamic director DrDhiraj Gupta.

Workshop was started with the lighting of lamp in front of goddess MaaSaraswati by DrAnuranjanMisra, Dean(R&D), DrVivek Gupta, Dr Anil Dubey, Mr Shiv Narain Gupta, DrPoojaSaxena and MrHarvinder Jindal of ECE department.

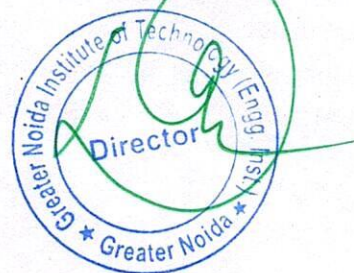

"A project is temporary in that it has a defined beginning and end in time, and therefore defined scope and resources. And a project is unique in that it is not a routine operation, but a specific set of operations designed to accomplish a singular goal."

"A product is a good, service, platform, application, system, etc., that is created, generally for sale, to meet customer and business needs. In retail and manufacturing, this may be taking materials and turning them into finished goods".

Speaker of the Event will be DrAnuranjanMisra, innovation Ambassador, Ministry of Education, Government of India. DrMisra told Students that Creating Project Plans to Focus Product Development is must. Students Projects must be Industry centric so that they can be converted into Products.

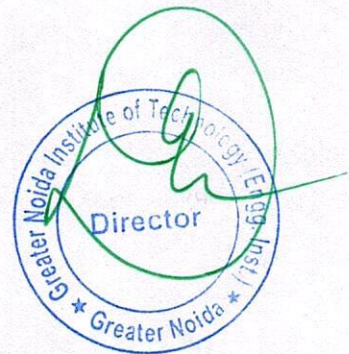

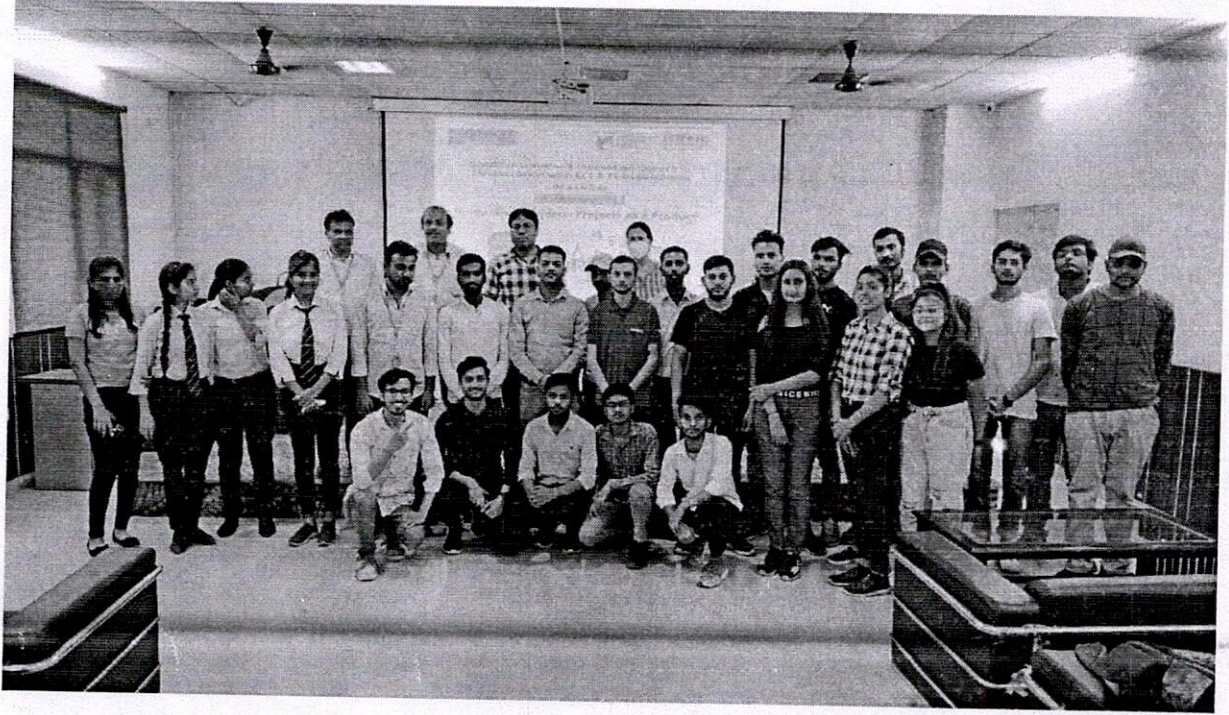

Outcome:

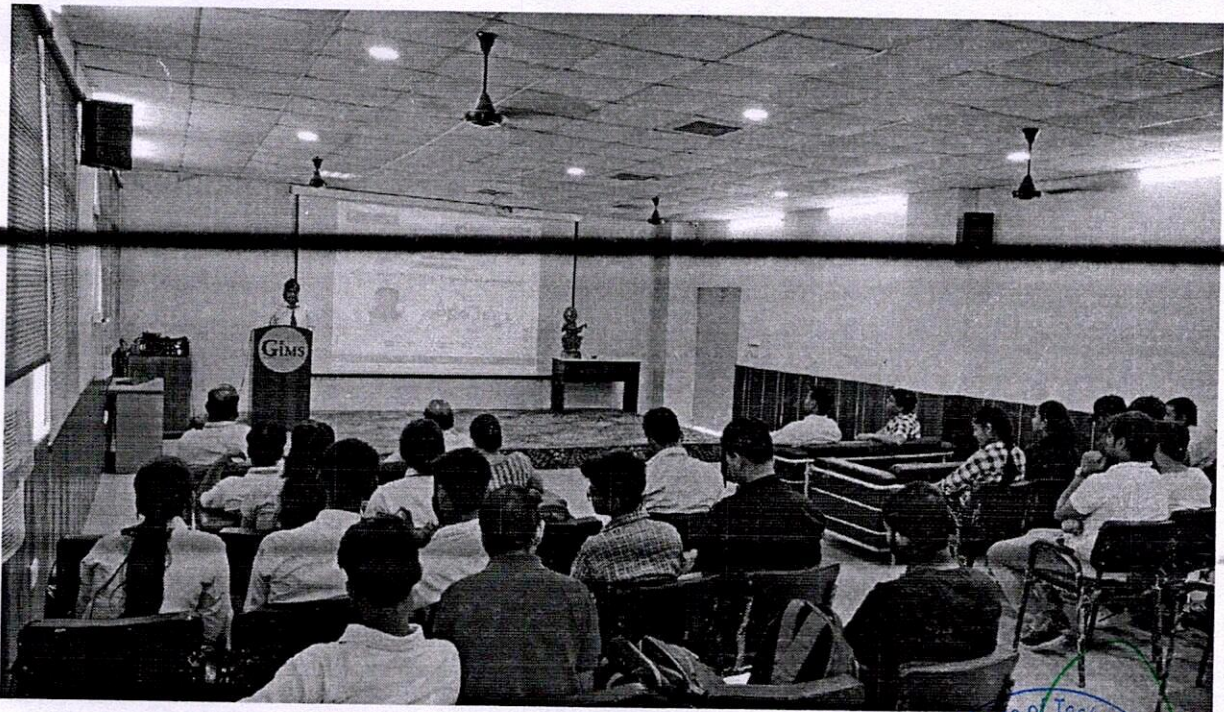

1. The students learned about the formal definitions of project and product.
2. They also learnt about how to make industry centric projects so that these can be converted into products.

EVENT TITLE:

“Motivational Session for Successful Entrepreneurs”

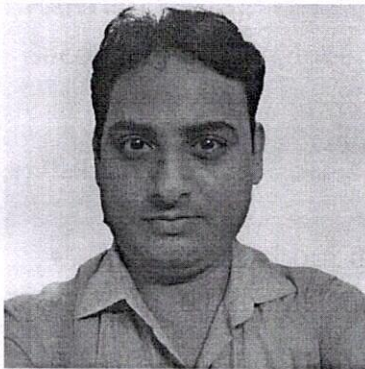

PARTICIPANTS:

Second Year IT Engineering Students & Faculty members.

OBJECTIVES:

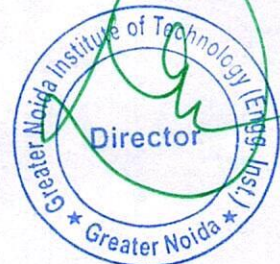

- Awareness about entrepreneurs.
- How to become successful entrepreneurs.
- informed various funding schemes under the banner of GOI,

Speaker of the Event: Mr. PRAMOOD KUMAR GUPTA

Profile of the Speaker

1. B. Tech, M. Tech, M.B.A.
2. **Senior System Engineer:**AKL Outsourcing Pvt. Ltd., Noida
3. **Senior Trainer:** iNurture Education Pvt. Ltd., Bangalore
4. **Assistant System Engineer:** TCS, Pune
5. **Certification:** - AZ-900,IBM certified IBM SEED Program, Dell Carnegie Certification of High Impact Presentation. Mission 10x Certified Trainer by Wipro.

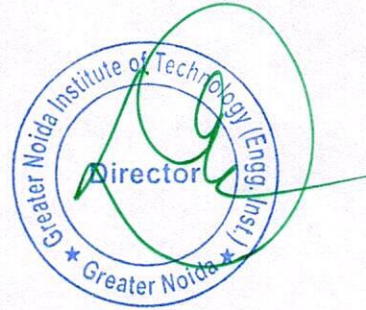

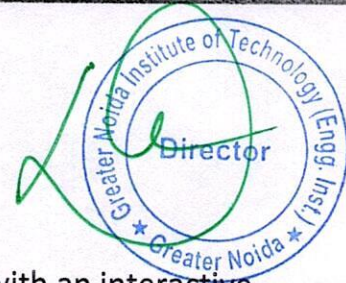

Report

Department of **Information Technology** in association with **Institution Innovation Cell (IIC)** organized an Expert talk on “**Motivational Session for Successful Entrepreneurs**” on 23 November, 2019 from 03:15 PM onwards. The aim of the talk was to improve process of innovation development and how to become successful entrepreneurs. The talk was given by Mr. Pramod Gupta, Senior Software Developer, Dr. Dheeraj Gupta, Director GNIOT, Dr. Anuranjan Mishra, Dean IIC, GNIOT Greater Noida.

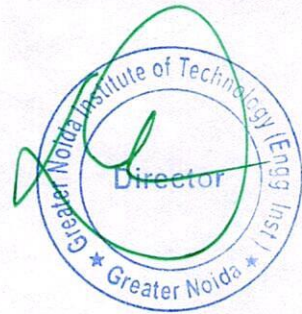

Prof. Vikas Singhal, Head of the Department welcome all delegates and presented the bouquet to guests after the inauguration of the event Prof. Dr. Dheeraj Gupta delivered the wonderful

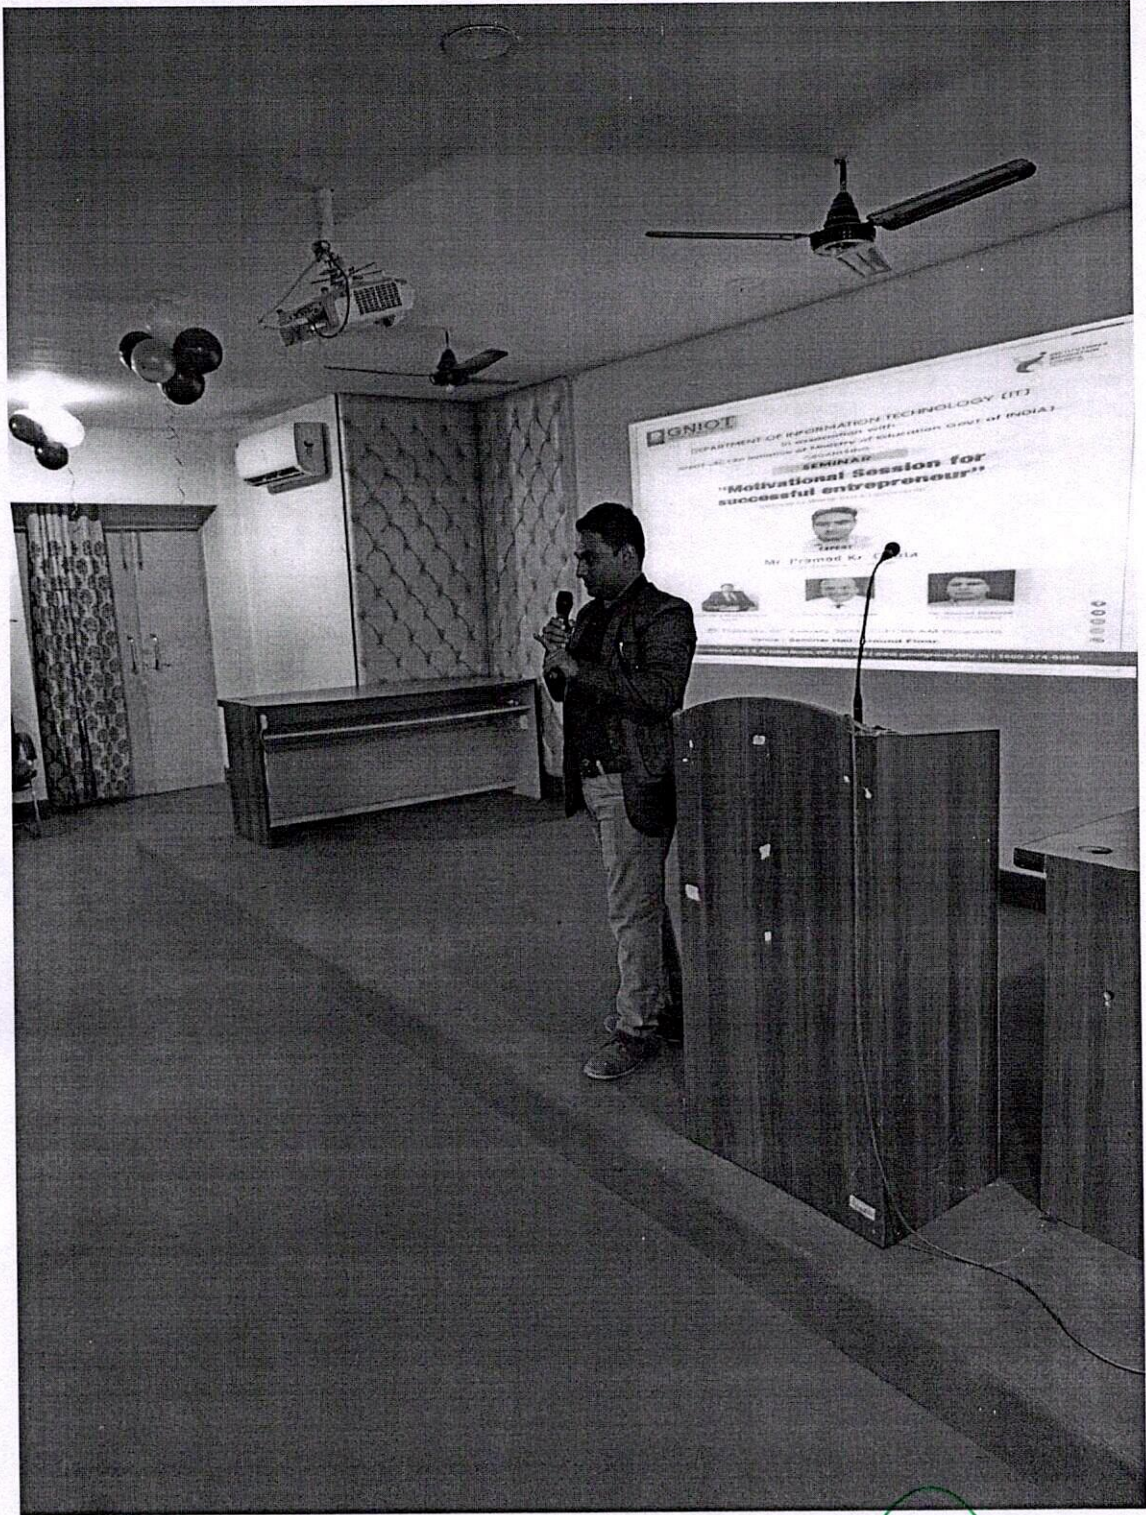

Speech and motivate to students for becoming a successful entrepreneur in continuation of speakers Dr. Anuranjan Mishra from Institute Innovation Cell, IIC, also motivated the students and informed various funding schemes under the banner of GOI, how to become Entrepreneur, after that Mr. Pramod Gupta, share the experience and gives the tips to become successful entrepreneur at the end of the event Dr. Anand Kumar Dohare, event coordinator vote of thanks to all participants and guests.

The Event was backed –up from the participant end with an interactive Question and Answer session. The session was very fruitful and interactive.

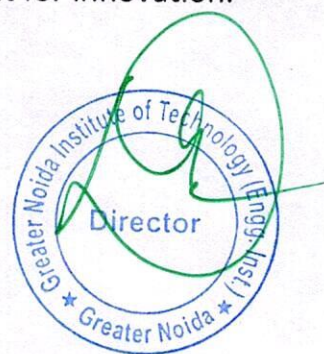

Greater Noida Institute of Technology (GNIOT)
Director
Greater Noida

The outcome of the Program

1. Students gained knowledge regarding entrepreneur.
2. Understand about various schemes of government for innovation.

Department of Information Technology in association with Institution Innovation Cell (IIC) has organized an Expert talk on “**Good Research and Innovation Practices**” on 23rd November, 2018 from 03:15 PM onwards. The aim of the talk is to improve process of innovation development in students. The session was given by Dr. Ankur Gupta, Dean R&D, IIMT UNIVERSITY MEERUT, and Dr. Anuranjan Mishra, Dean IIC, GNIOT Greater Noida.

Dr. Manoj Singhal, Head of the Department presented the bouquet to guests after the inauguration of the event Dr. Ankur Gupta delivered the wonderful session titled “The Good Research and Innovation Practices” for the Department of Information Technology, GNIOT on 23.11.2018. The coordinator of the event was Mr. Shiv Shankar Pal. Department of IT was grateful to him for helping in inviting such a dynamic personality to motivate our students for their involvement in research-based projects. He told the students as how the semester-based projects can be published as research papers. Dr. Anuranjan Mishra from Institute Innovation Cell, IIC, also motivated the students and informed various funding schemes under the banner of GOI, how to become Entrepreneur etc.

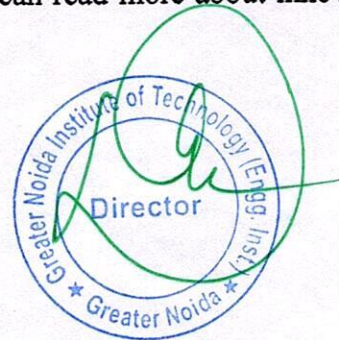

OUTCOME OF PROGRAM

1. Constant improvement
2. Value creation
3. Lean Startup Model
4. Resource allocation

Innovation management as a term, refers to a systematic learning process aspiring to create, identify, refine and implement new value creating ideas – to address perceived challenges and exploit opportunities that have risen or are about to rise in the future.

In other words, it simply means having a systematic approach for making the organization constantly better in the long run. Constant improvement is after all just a continuous learning process aiming to drive your business forward, just like innovation management. Never ceasing to learn and utilizing the acquired knowledge is a crucial part in succeeding in that.

If you are interested in a more comprehensive description, you can read more about innovation management [here](#).

Report on "Start-up Lecture"

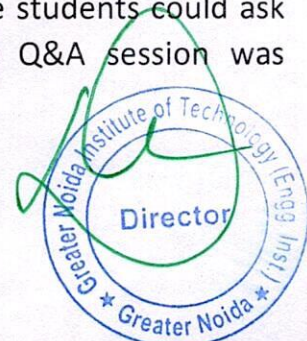

The Computer Science & Engineering Department successfully organized a "Start-up Lecture" in the college campus on 06-12-2019. The students got to learn how to go about starting their own technical venture, and got all the information for doing so.

The "Startup Lecture" was held on 06-12-2019 in the college campus with the aim of providing students with information and inspiration about entrepreneurship and starting their own businesses. The event was organized by GNIOT, Greater Noida, and was attended by several students from various departments.

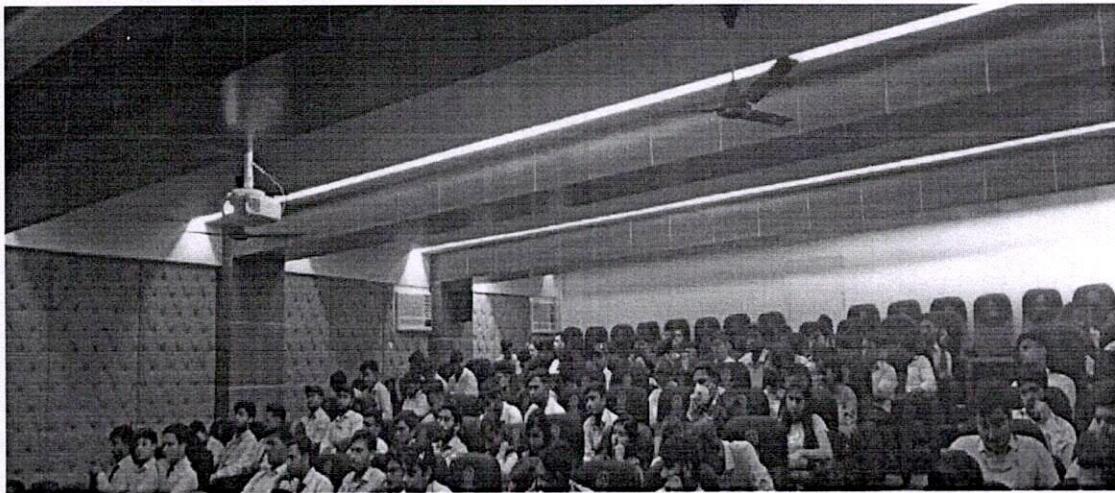

The event began with a keynote speech by a speaker Mr. Ajay Sharma, who shared their experiences and provided valuable insights into what it takes to start and run a successful business. They also talked about the challenges they faced and how they overcame them, as well as the lessons they learned along the way.

After the keynote speech, there was a Q&A session where students could ask questions and get advice from the entrepreneur. The Q&A session was

followed by a panel discussion with a group of successful entrepreneurs who shared their experiences and provided more insights into what it takes to start and run a successful business.

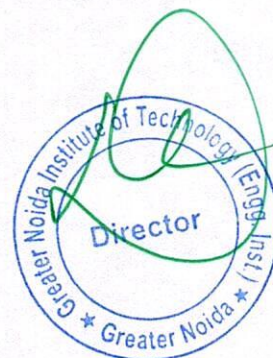

During the event, there were also several interactive activities for attendees, including a business idea pitching session where students could share their ideas and get feedback from the entrepreneurs. There were also several networking opportunities for students to connect with the entrepreneurs and other like-minded individuals.

The "Startup Lecture" was a great success, with many attendees expressing their appreciation for the opportunity to learn from successful entrepreneurs and gain valuable insights into starting and running a business. The organizers should be commended for their efforts in organizing such an important event.

Summary Report on "Entrepreneurship Lecture"

The Computer Science & Engineering Department successfully organized a "Entrepreneurship Lecture" in the college campus on 27-12-2019. The students got to learn how to go about starting their own technical venture, and got all the information for doing so.

The "Entrepreneurship Lecture" was organized in the college campus on 27-12-2019 with the aim of inspiring and educating students about entrepreneurship. The event was organized by the college administration and was attended by several students and faculty members.

It's great to hear that Mr. Shishir Tripathi delivered a lecture on entrepreneurship, sharing his experiences and insights with the audience.

Entrepreneurship is a crucial aspect of economic growth and development, and learning from successful entrepreneurs can provide valuable insights for aspiring entrepreneurs. Mr. Tripathi's experiences and insights may have included topics such as identifying business opportunities, managing risks, developing a business plan, securing funding, building a team, and managing finances. His lecture would have been informative and inspiring for the audience, encouraging them to pursue their entrepreneurial dreams and providing them with the knowledge and skills necessary to succeed. During the lecture, there was also a discussion about the various opportunities and

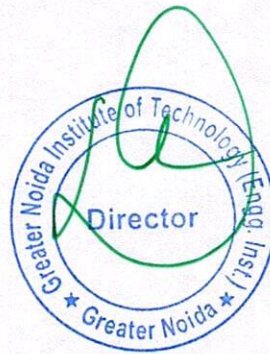

resources available for students who are interested in entrepreneurship. The speaker talked about the importance of networking and mentorship, and encouraged the students to take advantage of the various programs and resources offered by the college.

The lecture was followed by a question&answer session where students had the opportunity to ask the speaker about various aspects of entrepreneurship. The session was very interactive, and the students were able to learn a lot from the speaker's responses.

Ultimately, the "Entrepreneurship Lecture" was a huge success, with many students expressing gratitude for the chance to learn from a successful entrepreneur. The event raised awareness of entrepreneurship and the different options accessible to students who want to establish their own enterprises. It is intended that the lecture would inspire students to pursue their entrepreneurial goals and help the business community grow and develop.
