Event Description:

The Faculty Development Program (FDP) on ERP Implementation is a comprehensive training event designed to equip educators and faculty members with the knowledge and skills necessary to effectively teach and implement ERP systems in academic and organizational settings.

ERP systems have become essential tools for managing and integrating various processes like applying leaves, various notices, marks uploading/ upgradation, MIS Forms, E Books etc.

As ERP systems continue to gain prominence in the education world, it is crucial for educators to stay updated with the latest concepts, trends, and practical insights related to ERP implementation.

This FDP offers a unique opportunity for educators to enhance their understanding of ERP systems and their applications, enabling them to effectively teach ERP concepts to students and prepare them for the demands of the modern workforce.

Key Topics Covered:

Introduction to ERP: Gain a comprehensive overview of ERP systems, their history, evolution, and the benefits they offer to organizations.

ERP Modules and Functionality: Explore the core modules of an ERP system, such as finance, accounts, student support, admission, examination and administration.

Case Studies and Best Practices: Analyze real-world case studies of successful ERP implementations, highlighting best practices, and critical success factors.

The FDP was featured a blend of lectures, hands-on workshops, interactive discussions, and case study analysis, allowing participants to gain practical insights and develop a holistic understanding of ERP implementation. Participants will also have the opportunity to network and collaborate with fellow educators, sharing experiences and exchanging ideas.

By attending this FDP on ERP Implementation, educators were better equipped to integrate ERP concepts into their curriculum, provide students with practical knowledge and skills in ERP systems.

IMPORTANT DISCUSSION POINTS WERE ON:

1. Process of applying new ID cards for newly joined faculties and staff.
2. Upgradation of Employees ID card.
3. Previous year Question Paper.
4. Various MIS Forms.
5. Number of working days in a month as well as of previous months.
6. Apply leave on ERP.
7. CPRC Repository.

8. Various notices of colleges and university.
9. E- Books.
10. Marks uploading on ERP.
11. Mark daily attendance.
12. Generate various kinds of reports.
13. Fees status of student under MASTER REPORT.
14. Online registration of student.
15. Online feedback mechanism.
16. Important links such as Holidays, Newsletter and Tax declaration.

Conclusion of the event:

In conclusion, the FDP on ERP Implementation empowers educators to stay updated with the latest trends and practical insights in ERP systems. By imparting this knowledge to students, educators contribute to the development of a skilled workforce capable of leveraging ERP systems to drive efficiency and success in modern organizations.

Name of Event: ADMINISTRATIVE TRAINING (AT) ON CLEANLINESS & HYGIENE

Date of Event: 11-09-2017 to 15-09-2017

Time: 10:00 AM Onwards

Venue: Main Campus

Event Poster:

The poster features the GNIOT logo at the top left and a 2001 award seal at the top right. The main title is "ADMINISTRATIVE TRAINING CLEANLINESS & HYGIENE". Below the title is a cartoon illustration of two children cleaning, with speech bubbles saying "CLEANLINESS", "CLEANLINESS AS NEXT TO GODLINESS", and "Wash your hand". To the right of the illustration are three boxes with event details: "11.09.2017 to 15.09.2017", "10,00 A.m", and "MAIN CAMPUS". At the bottom left, contact information is provided: "Greater Noida, Delhi/NCR", "Toll Free No : 18002746969", and "Web : www.gniotgroup.edu.in". At the bottom right, there is a "FOLLOW US" section with social media icons for Facebook, YouTube, LinkedIn, Twitter, and Instagram.

Event Description:

During this interactive training session, participants gain a comprehensive understanding of the importance of cleanliness and hygiene in a professional environment. **The training cover a wide range of topics, including:**

Importance of Cleanliness: Understanding the impact of cleanliness on employee health, productivity, and overall well-being. Exploring the connection between cleanliness and a positive work environment.

Best Practices for Cleaning and Sanitization: Learning effective techniques for cleaning different areas and surfaces within the workplace, including workstations, common areas, restrooms, and shared equipment. Understanding proper sanitization methods and the use of cleaning products.

Personal Hygiene: Highlighting the significance of personal hygiene in preventing the spread of germs and maintaining a healthy workplace. Exploring strategies to promote personal hygiene practices among employees.

Waste Management: Addressing proper waste disposal methods, recycling initiatives, and promoting an environmentally friendly workplace. Understanding the importance of waste segregation and its impact on the environment.

Creating a Culture of Cleanliness: Exploring strategies to foster a culture of cleanliness and hygiene within the organization. Encouraging employee involvement and responsibility in maintaining a clean work environment.

Compliance with Health and Safety Regulations: Familiarizing participants with relevant health and safety regulations and guidelines related to cleanliness and hygiene. Understanding the legal obligations of employers and employees in maintaining a clean and safe workplace.

Implementing Effective Cleaning Policies and Procedures: Developing practical policies and procedures to ensure consistent and effective cleaning practices throughout the organization. Exploring the use of technology and tools to streamline cleaning operations.

Conclusion of the event:

In conclusion, administrative training on cleanliness and hygiene was essential for promoting a healthy and productive work environment. By providing employees with the necessary knowledge and skills, organizations can maintain cleanliness standards, prevent the spread of diseases, and improve overall well-being.

During this training, administrators emphasized the importance of cleanliness and hygiene practices, such as regular hand washing, proper waste disposal, and maintaining clean and organized workspace. They should also educate employees on the potential health risks associated with poor hygiene and the benefits of maintaining a clean environment.

Event Description:

The faculty development program on basic computer training, organized by the chairman and director of our institution, was simply enthralling. As faculties walked into the seminar hall, eyes were immediately drawn to the numerous laptops that had been set up for us. The air was thick with anticipation as we waited for our instructors to begin their presentation. They started off with an engaging introduction that instantly captured our attention and held it throughout the session. Through a series of interactive activities and hands-on exercises, they took us through all the basics of computing - from operating systems to word processing software in a fun and easy to understand manner.

As we worked on each task at hand, there was never any moment where we felt overwhelmed or lost. Our experienced trainers made sure everyone stayed engaged by taking frequent breaks between sessions and answering every question thrown their way with utmost care.

By the end of this faculty development program, not only did we have newfound confidence in using computers but also a deeper appreciation for technology's role in teaching pedagogy. This event is proof positive that when it comes to learning new things, anything can be possible if you're willing enough to put in some effort!

The faculty development program on basic computer training is being organised by none other than the chairman and director themselves. That's right, these two visionaries have seen a need for enhanced technological proficiency among their teaching and non teaching staff and are taking matters into their own hands. This program promises to cover all of the fundamental aspects of computing, from word processing to spreadsheet creation and beyond. With a curriculum designed specifically for educators, participants will gain valuable insights into how technology can be used in the classroom to enhance learning outcomes. But that's not all; this program also includes interactive workshops, group discussions, and one-on-one coaching sessions with experts in the field!

Conclusion of the event:

In conclusion, participating in a Basic Computer Training program, was highly beneficial for individuals seeking to enhance their computer skills. Such programs provide a comprehensive overview of fundamental computer concepts, software applications, and practical techniques necessary for efficient computer usage.

By participating in a Basic Computer Training, individuals can expect to gain several advantages. Firstly, they will acquire a solid understanding of computer hardware components, operating systems, and software applications commonly used in various industries. This knowledge will enable them to navigate computer systems confidently, troubleshoot basic issues, and make informed decisions when selecting appropriate software tools.

Additionally, a Basic Computer Training FDP often covers essential productivity tools like word processors, spreadsheets, and presentation software. Participants can learn how to create professional-looking documents, analyze data, and deliver effective presentations, thereby improving their efficiency and effectiveness in the workplace.

Furthermore, individuals attending such programs will likely gain insights into internet usage, including web browsing, email communication, and online research. They can learn best practices for online security, data privacy, and ethical considerations, which are increasingly important in today's digital landscape.
