AutoCAD : Learn to Design

Overview:

AutoCAD is the standard design software used in the engineering, architecture, interior design and construction industries. Designers and drafters use it to create two-dimensional (2D) and three-dimensional (3D) computer drawings. Students interested in learning how to use this software can complete coursework to earn knowledge of designing.

Course Objectives:

The objective of this course is to teach students the basic commands and tools necessary for professional 2D drawing, design and drafting using AutoCAD. Courses that earn continuing education units toward professional training and development based on industrial requirements.

Course Outcomes:

After completing this course users will be able to:

- Operate the AutoCAD design software based on industrial approach.
- Understand the concept and techniques to draw the industrial products.
- 2-D Drafting and drawing of engineering components using draw and modified commands.
- Understand the use of drawing aids like grid, snap, ortho., object snap etc.
- Navigate the 2D Drawings and dimensioning.
- Isometric drawings, wireframe surface and solid modeling.
- Create multiple designs using several of tools.

Action Taken:

- It has been observed that Ability of the curriculum to start entrepreneurship and quality of teaching are little bit low as compared to others. So the syllabus could enhance entrepreneurship skills in students and teaching can be enhanced by providing professional training to the trainer on specific subjects that meets the requirement of current industry.
- For job perspective this course is much needed by students

Foundation Learner course has diversified topics to enhance:

- Vocabulary

> **Soft Skills that include:**

- Self – Introspection,
- Effective Planning and

Evaluation & Feedback:

Written assessments are taken periodically to ensure seriousness of students in the modules. Speaking exercises are done by students to make them overcome their stage fear and hesitation. The major objective of CSDC training is to boost confidence in every student who is a part of it. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

Core Java Syllabus

Overview:

Java programming language is developed by Sun Microsystems. Java is object oriented, platform independent, simple, secure, architectural-neutral, portable, robust, multi-threaded, high performance, distributed and dynamic. It can be used to develop software and applets. A java program can run on various operating systems without rewriting the code. And this is possible because of java run-time environment which tells the operating system what to do by interpreting the java code.

Objective:

- To become familiar with the features of Java Language

SUMMARY REPORT

Name of the Program: Corporate Transition Learner Certification

Course: B.Tech. (All Branches)

Semester: 3rd Year 5th Semester (2018-19)

Duration: 30 Hours

CSDC plays a very significant role in 3rd Yr, 5th semester. While in second year CSDC focuses on building the basic foundation or communication skills in general and spoken English in particular, modules for the third year focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them.

The certification is known as 'Corporate Transition Learner Certification', which is provided to every student in addition to their academic certifications. Transition Learner has its very informative Module, which includes:

> Soft Skills expertise in:

- How to give a professional self-introduction
- Verbal/Non-verbal communication skills (Body Language)/ Para-Verbal communication
- Professional Attire / Power Dressing
- Etiquettes
- Social Etiquettes
- Business Etiquettes
- Digital/Telephonic Etiquettes
- Email Etiquettes

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Foundation Expert Certification

Course: B.Tech. (All Branches)

Semester: 2nd Year 4th Semester (2018-19)

Duration: 30 Hours

For the even semester CSDC provides the certification of 'Corporate Foundation Expert' for students of B.Tech. 2nd year even semester across all branches. Students showed dedication and commitment towards the program and were awarded with 'Certificate of Completion'.

Many outstanding students were awarded A+/A grades for their meticulous progress. 'Certificate of Appreciation' was also awarded to some phenomenal students in the category of *Student of Year, Student of Semester, Mr. & Ms. Classy, and Prime Presence*.

The aim of this course is to provide value addition to the students as far as communication skills or spoken English is concerned. The course reinforces the grammar concepts into the minds of the students, thereby aiming to eliminate the mistakes committed by them in its usage. The course has an interesting and useful module including activities and worksheets along with revision of theory.

 - Voice & Accent
 - English for Everyday living
 - Advance Vocabulary

- > **Soft Skills include:**
 - Team Building,
 - Perception of Human Conduct

Evaluation & Feedback:

Written assessments are taken periodically to ensure seriousness of students in the modules. Speaking exercises are done by students to make them overcome their stage fear and hesitation. The major objective of CSDC training is to boost confidence in every student who is a part of it. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

Semester: 3rd Year 6th Semester (2018-19)

Duration: 30 Hours

CSDC announces a very beneficial training with certification called Transition Expert for all the B.Tech branches of 3rd year. CSDC introduces modules for training students on stage management, effective communication, effective presentation skills, how to make a PPT(Lab) and creative presentation delivery.

Apart from this the students are trained on facing GDs and interviews. This module is extremely important as it helps the student gain confidence on facing the above.

Transition Expert has an essential Module, which includes Soft Skill knowledge about:

- Affirmative Transformation
- Presentation Skills
- Resume Writing
- Know How of Group Discussion
- Basic Interview Skills

With the training of CSDC, students get prepared, focused and confident for their placements

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Progression Learner Certification

Course: MCA

Semester: 2nd Yr 3rd Sem (2018-19)

Duration: 30 Hours

CSDC plays a very significant role in 2nd Yr, 3rd semester. CSDC modules focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them.

The certification is known as 'Corporate Progression Learner Certification', which is provided to every student in addition to their academic certifications. Progression Learner has its very informative Module, which includes:

> Soft Skills expertise in:

- How to give a professional Self-Introduction
- Verbal/Non-verbal communication skills (Body Language)/ Para-Verbal communication
- Professional Attire / Power Dressing
- Etiquettes
- Social Etiquettes
- Business Etiquettes
- Digital/Telephonic Etiquettes
- Email Etiquettes

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

CSDC announces a very beneficial training with certification called 'Progression Expert' for all the MCA 2nd Yr 4th Sem. CSDC introduces modules for training students on stage management, effective communication, effective presentation skills, how to make a PPT and creative presentation delivery.

Apart from this the students are trained on facing GDs and interviews. This module is extremely important as it helps the student gain confidence on facing the above.

Progression Expert has an essential module, which includes Soft Skill knowledge about:

- Affirmative Transformation
- Presentation Skills

- Basic Interview Skills

With the training of CSDC, students get prepared, focused and confident for their placements.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system, both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Progression Expert Certification

Course: MBA

Semester: 1st Yr 2nd Sem (2018-19)

Duration: 30 Hours

CSDC announces a very beneficial training with certification called 'Progression Expert' for all the MBA 1st Yr 2nd Sem. CSDC introduces modules for training students on stage management, effective communication, effective presentation skills, how to make a PPT and creative presentation delivery.

Apart from this the students are trained on facing GDs and interviews. This module is extremely important as it helps the student gain confidence on facing the above.

Progression Expert has an essential module, which includes Soft Skill knowledge about:

- Affirmative Transformation
- Presentation Skills
- Resume Writing
- Know How of Group Discussion
- Basic Interview Skills

With the training of CSDC, students get prepared, focused and confident for their placements.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

CSDC presents a very essential training course for all the final year batches called "CONDUIT CERTIFICATION". And, CSDC, particularly, takes the responsibility of each and every student who is part of it that they must achieve the opportunity available to them.

The modules included here are meticulously and thoughtfully designed to train students on the actual corporate day to day situations and the handling of the same, thus ensuring corporate readiness of the candidate. Conduit Learner certification has a very innovative Module which includes Soft Skills perfection through:

- Motivational & Self –Introduction
- Impression Management
- Stress Management
- Client Handling
- Professional Etiquettes including Power Dressing
- Resume Writing
- Conversational Mannerism
- Effective Presenter & Team Player

CSDC certification is a beneficial step towards better Education. CSDC modules focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them. CSDC presents a very effective and knowledgeable training for the final year students of MCA. This is the final bridging course between the academia and the corporate. CSDC, therefore plays a vital role in preparing the students for inhaling best career options for themselves.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).
