Assessment Procedure of Training Programs

The Assessment Procedure of training program is a combination of MCQ using Google Form as well as the execution of programs.

- Evaluation shall be done based on the performance in the two Assessment Tests with 50 marks each.
- Two tests shall be conducted preferably one in the middle and the other at the end of the course by the respective trainers.
- The duration of assessment shall be two hours each.
- The pattern of question paper decided by the respective trainers.
- Minimum 50% Attendance is compulsory

Passing Criteria

After completion of the training program 2 type of certificates shall be issued to the students based on the following criteria :

Appreciation	**(Attendance + Assessment score) >=75%**
Completion	**(Attendance + Assessment score) >=50 % and < 75%**

Core Python Essentials: Learn to Code

Delivery Method
Instructor-Led

Course Duration
40Contact Hours

Overview

Python is one of the top three programming languages in the world. The course is designed to provide Basic knowledge of Python. Python programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Python programming language.

Also, Python programming is a general-purpose skill used in almost all fields, including:

Data science, Scientific and mathematical computing, Web development, Finance and trading, System automation and administration, Computer graphics, Basic game development, Security and penetration testing, General and application-specific scripting, Mapping and geography (GIS software)

Audience

The course is intended for students and individuals who want to learn Programming Language.

Duration

Total Duration: 80 Hours

- Contact Hours – 40 Hours Class + Lab
- Self-Learning hours – 30 Hours
- Project Hours – 10 Hours

Pre-requisite Knowledge/Skills

- Basic understanding of computer.
- Knowledge of math at least high school level.

Greater Noida Institute of Technology (Engg. Inst.) Director Greater Noida

Course Objectives

The objectives of this course includes:

Upon successful completion of this course, students should be able to:

- Teach principles of Python, pros and cons on scripting languages vs. classical programming languages (at a high level).
- Build basic programs using fundamental programming constructs like variables, conditional logic, looping, and functions.
- Expose students to object oriented programming.
- Learn to apply fundamental problem solving techniques.

Course Outcomes

At the end of this course students will -

- Understand principles of Python
- Understand the pros and cons on scripting languages vs. classical programming languages (at a high level)
- Understand object oriented programming
- Understand Problem solving and programming capability
- Able to create small CLI base Game/Project.

Course Outline

The 40-hour Theory course is divided into 5 different sections. Each section equips the students with the skills and knowledge which help them understand the next section:

Course:
Co Python Essentials: Learn to Code

Delivery Method
Instructor-Led

CourseDuration
40 Contact Hours

Section 1: Fundamental of Python

Section 2: Python Collection

Section 3: Function & Modules

Section 4: Exception Handling

Section 5: Projects

Labs

The Lab component of the course consisting of exercises mapped to the Theory portion of the course. Each exercise helps the student practice and apply the skills learned in the Theory section of the course.

Classroom Requirements

Recommended student-teacher ratio is 40:1

Each student should have a laptop

Access to Internet for students and Instructor

Section 1:Fundamental of Python

- **Introduction to Python**
  - ✓ History, Features, Download and Installation
  - ✓ Working with Python
    - About IDLE
    - Run code from Python shell (>>>)
    - Running Python Files
  - ✓ The input() Function
  - ✓ The print() Function
  - ✓ The help() and dir() function
  - ✓ The id() and type() function
- **Python Variables, Literals and Data Type**
  - ✓ Python Variables
    - Variable names and keywords
    - Assigning value to Variables
  - ✓ Literals
    - Numeric Literals
    - String literals
    - Boolean literals(True & False)
    - Special literals (None)
    - Literal Collections(List, tuple, set, dict)
  - ✓ Comments
  - ✓ Data Type
    - Assigning or Initializing Values to Variables
    - Multiple Assignment
    - Multiple Statements on a Single Line
  - ✓ Debugging
  - ✓ Hands-on Exercises
- **Operators and Expressions**
  - ✓ Arithmetic Operators
  - ✓ Comparison Operators
  - ✓ Assignment Operators
  - ✓ Unary Operators
  - ✓ Bitwise Operators
  - ✓ Shift Operators
  - ✓ Logical Operators
  - ✓ Membership Operators
  - ✓ Identity Operators
  - ✓ Operators Precedence and Associativity
  - ✓ Expressions
  - ✓ Hands-on Exercises
- **Flow Control**
  - ✓ Indentation
  - ✓ if...else Statement
    - if Statement
    - if ...else Statement
    - elif ladder Statement
    - Nested if....else Statement
  - ✓ Looping
    - The range() function
    - for loop
    - while loop

Director

lecting an appropriate loop
- Nested loop
- The break Statement
- The continue Statement
- The pass Statement
- The else Statement used with Loops

✓ Hands-on Exercises

Section 2: Python Collection

❖ Working with Python String
- ✓ Accessing Strings
- ✓ Basic Operations
- ✓ String slices
- ✓ Function and Methods
- ✓ String Formatting
  - Escape Sequences
  - String Formatters (f-strings,% operator, format() Method)
- ✓ Hands-on Exercises

❖ Working with Python List
- ✓ Introduction
- ✓ Accessing List
- ✓ Basic Operations
- ✓ List slices
- ✓ Mutable and Immutable
- ✓ Function and Methods
- ✓ List Comprehension
- ✓ Hands-on Exercises

❖ Working with Tuple
- ✓ Introduction
- ✓ Accessing Tuple
- ✓ Basic Operations
- ✓ Function and Methods
- ✓ Hands-on Exercises

❖ Working with Set
- ✓ Introduction
- ✓ Accessing set
- ✓ Basic Operations
- ✓ Function and Methods
- ✓ Hands-on Exercises

❖ Working with Dictionary
- ✓ Introduction
- ✓ Accessing set
- ✓ Basic Operations
- ✓ Function and Methods
- ✓ Hands-on Exercises

Section 3: Function & Modules

❖ Function
- ✓ Function Definition
- ✓ Calling Function
- ✓ Types of arguments
  - Positional argument
  - Default argument
  - Keyword arguments
  - Variable-length arguments

Core Java Essentials: Learn to Code

Course Description

Overview

Java is one of the top three programming languages in the world. The course is designed to provide Basic knowledge of Java. Java programming is intended for software engineers, system analysts, program managers and user support personnel who wish to learn the Java programming language.

Also, Java programming is a platform Independent language used in almost all fields, including:

Enterprise Project, Data science, Scientific and mathematical computing, Web development, Finance and trading, System automation and administration, Computer graphics, Basic game development, Security and penetration testing, General and application-specific scripting, Mapping and geography (GIS software)

Audience

The course is intended for students and individuals who want to learn Programming Language.

Duration

Total Duration: 80 Hours

- Contact Hours – 40 Hours Class + Lab
- Self-Learning hours – 30 Hours
- Project Hours -- 10 Hours

Pre-requisite Knowledge/Skills

- Basic understanding of computer.
- Knowledge of math at least high school level.

Course Objectives

Upon successful completion of this course, students should be able to:

- Teach principles of Java, pros and cons on scripting languages vs. classical programming languages (at a high level).
- Build basic programs using fundamental programming constructs like variables, conditional logic, looping, and functions.
- Expose students to object oriented programming.

Learn to apply fundamental problem solving techniques

Course Outcomes

At the end of this course students will -

- Understand principles of Java
- Understand the pros and cons on scripting languages vs. classical programming languages (at a high level)
- Understand object oriented programming
- Understand Problem solving and programming capability
- Able to create small CLI base Game/Project.

Course Duration
40 Contact Hours

Course Outline

The 40-hour Theory course is divided into 11 different sections. Each section equips the students with the skills and knowledge which help them understand the next section:

Section 2: Java Variables, Literals and Data Type

Section 3: Operators and Expressions

Section 4: Flow Control

Section 5: Java Object and class

Section 6: Java Inheritance

Section 7: Java Abstraction

Section 8: Java Encapsulation**Section 1:** Fundamental of Java

Section 9: Java String

Section 10: Exception handling

Section 11: Project

Labs

Assessment Procedure of Training Programs

The Assessment Procedure of training program is a combination of MCQ using Google Form as well as the execution of programs.

- Evaluation shall be done based on the performance in the two Assessment Tests with 50 marks each.
- Two tests shall be conducted preferably one in the middle and the other at the end of the course by the respective trainers.
- The duration of assessment shall be two hours each.
- The pattern of question paper decided by the respective trainers.
- Minimum 50% Attendance is compulsory

Passing Criteria

After completion of the training program 2 type of certificates shall be issued to the students based on the following criteria :

Appreciation	**(Attendance + Assessment score) >=75%**
Completion	**(Attendance + Assessment score) >=50 % and < 75%**

Ms. Sarika Agarwal
HoD, 360 Degree UpSkills

Director

The Lab component of the course consisting of exercises mapped to the Theory portion of the course. Each exercise helps the student practice and applies the skills learned in the Theory section of the course.

Classroom Requirements

Recommended student-teacher ratio is 40:1

Each student should have a laptop

Access to Internet for students and Instructor

Detailed Course Contents

Section 1: Fundamental of Java

- **Introduction to Java**
  - ✓ What is Java,
  - ✓ History of Java,
  - ✓ Features of Java,
  - ✓ C++ vs. Java,
  - ✓ Hello Java Program,
  - ✓ Program Internal,
  - ✓ How to set path? JDK, JRE, and JVM,
  - ✓ JVM: Java Virtual Machine,
  - ✓ First Java Program
  - ✓ Command Line Argument.
  - ✓ Hands on Practice

Section 2: Java Variables, Literals and Data Type

- ✓ Java Variables
  - Variable names and keywords
  - Assigning value to Variables
- ✓ Literals
  - Numeric Literals
  - String literals
  - Boolean literals(True & False)
  - Special literals (None)
  - Literal Collections(List, tuple, set, dict)
- ✓ Comments
- ✓ Data Type
  - Primitive Data type
  - Reference Data type
- ✓ Wrapper Classes
- ✓ Hands-on Exercises

Section3: Operators and Expressions

- ✓ Arithmetic Operators
- ✓ Comparison Operators
- ✓ Assignment Operators

- Unary Operators
- Bitwise Operators
- Shift Operators
- Logical Operators
- Operators Precedence and Associativity
- Expressions
- Hands-on Exercises

Section 4: Flow Control

- Indentation
- if...else Statement
  - if Statement
  - if ...else Statement
  - Nested if....else Statement
- Looping
  - for loop
  - while loop
    - Do-while loop
    - Nested Loop
    - Java Break
    - Java Continue
- Hands-on Exercises

Section 5: Java Object and class

- Introduction to Object
  - Naming Convention,
  - Object and Class,
  - Methods
  - Constructor
  - Constructor Overloading
  - Static Block
  - Static variable
  - Static method
  - Hands-on Exercises

Section 6: Java Inheritance

- Inheritance(IS-A)
- Aggregation(HAS-A),
- Java Polymorphism,
- Method Overloading,
- Method Overriding,
- Covariant Return Type,
- super keyword,
- Instance Initializer block,
- final keyword,
- Runtime Polymorphism
- Dynamic Binding,
- instanceof operator.

Section 9: Java String

- ✓ What is String,
- ✓ Mutable, String
- ✓ String Functions
- ✓ String Buffer and its Function
- ✓ String Builder and its Function
- ✓ String Builder Vs String Builder
- ✓ String Tokenizer
- ✓ Hands-on Exercises

Section 10: Exception handling

- ✓ Introduction to Errors and Exceptions
  - Syntax Errors
  - Exceptions
- ✓ Handling Exceptions
  - The try, catch Block
  - Multiple Exceptions
  - Finally Block
  - Nested Try
- ✓ Custom Exception
  - Throw and throws
- ✓ Assertions
- ✓ Hands-on Exercises

Section 11: Project

- ❖ **Wumpus Game**
  Wumpus is a text-based game, where a player moves through a cave system searching for gold and trying to avoid bottomless pits and a feared Wumpus. The cave system is a 4 x 4 grid. Each grid

element can hold one GameItem. A GameItem is one of: Gold, Pit, Wumpus or ClearGround. The player can move forward, backward, left or right one grid element at a time. The cave system wraps around so, for example, moving left from position [3][0] causes the player to appear in position [3][3]. The player can sense, but not see, what is in the immediate grid elements around the player. A pit will be sensed as a breeze, gold as a faint glitter and the Wumpus as a vile smell. In this assignment, the grid will be displayed, but in a real game this feature would be disabled. If the player moves onto a pit or the Wumpus, the player dies and the game ends. If the player moves onto gold, the game score increases by one and the gold is replaced by ClearGround.

Assessment Procedure of Training Programs

The Assessment Procedure of training program is a combination of MCQ using Google Form as well as the execution of programs.

- Evaluation shall be done based on the performance in the two Assessment Tests with 50 marks each.
- Two tests shall be conducted preferably one in the middle and the other at the end of the course by the respective trainers.
- The duration of assessment shall be two hours each.
- The pattern of question paper decided by the respective trainers.
- Minimum 50% Attendance is compulsory

Passing Criteria

After completion of the training program 2 type of certificates shall be issued to the students based on the following criteria :

Appreciation	**(Attendance + Assessment score) >=75%**
Completion	**(Attendance + Assessment score) >=50 % and < 75%**

AutoCAD: Learn to Design

Course Description

Course:
AutoCAD: Learn to Design

Delivery Method
Instructor-Led

Course Duration
45 Contact Hours

Overview

AutoCAD is the standard design software used in the engineering, architecture, interior design and construction industries. Designers and drafters use it to create two-dimensional (2D) and three-dimensional (3D) computer drawings. Students interested in learning how to use this software can complete coursework to earn knowledge of designing.

Audience

The course is intended for students of ME-2nd Year.

Duration

Total Duration: 36 Hours

- Contact Hours – 30 Hours Class + Lab
- Self-Learning hours –10 Hours
- Project Hours – 5 Hours

Pre-requisite Knowledge/Skills

- Basic understanding of computer.
- Knowledge of engineering graphics and machine drawing.

Course Objectives

The objective of this course is to teach students the basic commands and tools necessary for professional 2D drawing, design and drafting using AutoCAD. Courses that earn continuing education units toward professional training and development based on industrial requirements.

Greater Noida Institute of Technology (Engg. Instt.) ★ Greater Noida ★ Director

Course Outcomes

After completing this course users will be able to:

- Operate the AutoCAD design software based on industrial approach.
- Understand the concept and techniques to draw the industrial products.
- 2-D Drafting and drawing of engineering components using draw and modified commands.
- Understand the use of drawing aids like grid, snap, ortho., object snap etc.
- Navigate the 2D Drawings and dimensioning.
- Isometric drawings, wireframe surface and solid modeling.
- Create multiple designs using several of tools.
- Create layers to control the objects' visibility.
- Plot or print the drawing by scale.

Course:
Core Java Essentials: Learn to Code

Delivery Method
Instructor-Led

Course Duration
40 Contact Hours

Course Outline

. The following are some of the most common topics covered in AutoCAD design courses:

- Drawing commands and modified commands in 2D Drafting
- Dimensioning
- Layers and Line Types
- Curves
- 3D modeling
- Multiple Lines
- Geometric Shapes
- Isometric drawings

Classroom Requirements

Recommended student-teacher ratio is 30:1
Each student should have a laptop with design softwares.

Assessment Procedure for Training Programs

The Assessment Procedure of training program is a combination of MCQ using Google Form as well as the execution of programs .

- Evaluation shall be done based on the performance in the two Assessment Tests with 50 marks each.
- Two tests shall be conducted preferably one in the middle and the other at the end of the course by the respective trainers.
- The duration of assessment shall be two hours each.
- The pattern of question paper decided by the respective trainers.

Passing Criteria

After completion of the training program 2 type of certificates shall be issued to the students based on the following criteria :

Appreciation	**(Attendance + Assessment score) >=75%**
Completion	**(Attendance + Assessment score) >=50 % and < 75%**

Revit Architecture: Learn Modelling

Course Description

Course:
Revit Architecture: Learn Modelling

Delivery Method
Instructor-Led

Course Duration
40Contact Hours

Overview

Revit allows for better work sharing, if everyone is using it. AutoCAD is ideal for 2D drawing, representing real-scale elements for your project. Revit however, is a whole lot closer to the real thing. It can be used to build 3D components with real-life information.

Audience

The course is intended for students and individuals who want to learn 3D Modelling of Structure.

Duration

Total Duration: 80 Hours

- Contact Hours – 40 Hours Class + Lab
- Self-Learning hours – 30 Hours
- Project Hours – 10 Hours

Pre-requisite Knowledge/Skills

- Basic understanding of AutoCAD
- Rendering
- Walkthrough
- Knowledge about size of doors, window
- Knowledge of estimation.

Course Objectives

- Build basic understanding of design of civil engineering structures like steel structures, bridges, arches, etc.
- Expose students to estimation and costing of the model.

Learn to apply fundamental of reinforcement calculation in a structural building.

Course Outcomes

At the end of this course students will -

- Understand principles of modelling of structures
- Understand the pros and cons of modelling over classic approach of calculation.
- Understand various estimation techniques
- Understand Interior design in a map
- Able to create reinforcement details required in a beam/ columns.

Course:
Revit Architecture: Learn Modelling

Delivery Method
Instructor-Led

Course Duration
40Contact Hours

Course Outline

The 40-hour Theory course is divided into 8 different sections. Each section equips the students with the skills and knowledge which help them understand the next section:

Section 1: Introduction Revit Architecture and user interface.

Section 2: Modellings tools and Levels

Section 3: Creating Ceiling, doors and Floors.

Section 4: Creating Roofs, openings.

Section 5: Modellings curtains Walls, Stairs, Ramp, Railings.

Section 6: Calculate Schdules and Rooms

Section 7: Calculate Area, and Sheets.

Section 8: Rendering.

Greater Noida Institute of Technology (Engg. Inst.) Director * Greater Noida *

Course:
Revit Architecture: Learn Modelling

Delivery Method
Instructor-Led

Course Duration
40Contact Hours

The Lab component of the course consisting of exercises mapped to the Theory portion of the course. Each exercise helps the student practice and applies the skills learned in the Theory section of the course.

Classroom Requirements

Recommended student-teacher ratio is 30:1

Each student should have a laptop

Access to Internet for students and Instructor

Detailed Course Contents

Section 1:

- **: Introduction Revit Architecture and user interface.**

  - ✓ Revit File Types
  - ✓ User Interface
  - ✓ Building Elements
  - ✓ Starting a Project.

Section 2: Modellings tools and Levels

- ✓ Drawings Aids
- ✓ Levels
- ✓ Grids
- ✓ Walls
- ✓ Construction Modelling tools

Section3: Creating Ceiling, doors and Floors.

- ✓ Modify Commands
- ✓ Doors
- ✓ Windows
- ✓ Floors
- ✓ Ceiling

SUMMARY REPORT

Name of the Program: Corporate Foundation Learner Certification
Course: B.Tech. (All Branches)
Semester: 2nd Year 3rd Semester (2021-22)
Duration: 30 Hours

CSDC is a brilliant step towards the upliftment of professional education with the execution of informational knowledge for all the B.Tech. 2nd year odd semester batches. As the session for 2nd yr is ongoing, students would be assessed and certified as per their performance and participation in the course.
This semester includes certification of "Corporate Foundation Learner". It has unique and very productive modules for the students to enhance their Language Skills and Soft Skills. The students are awarded with 'Certificate of Completion' for the entire program. Few commendable students who display staunchness and diligence towards the course, are awarded with 'Certificate of Appreciation' in different categories including, *Student of Year*, *Student of Semester*, *Prime Presence*, *Mr. & Ms. Classy*.

Foundation Learner course has diversified topics to enhance:

- **Spoken/Written English that includes:**
  - Common English Greetings
  - Parts of Speech
  - Determiners
  - Tenses
  - Sentence Formation and
  - Vocabulary

- **Soft Skills that include:**
  - Self – Introspection,
  - Effective Planning and
  - Task Scheduling

Greater Noida Institute of Technology (Engg. Inst.) Director

Evaluation & Feedback:

Written assessments are taken periodically to ensure seriousness of students in the modules. Speaking exercises are done by students to make them overcome their stage fear and hesitation. The major objective of CSDC training is to boost confidence in every student who is a part of it. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.
As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.
We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Transition Learner Certification
Course: B.Tech. (All Branches)
Semester: 3rd Year 5th Semester (2021-22)
Duration: 30 Hours

CSDC plays a very significant role in 3rd Yr, 5th semester. While in second year CSDC focuses on building the basic foundation or communication skills in general and spoken English in particular, modules for the third year focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them.

The certification is known as 'Corporate Transition Learner Certification', which is provided to every student in addition to their academic certifications. Transition Learner has its very informative Module, which includes:

- Soft Skills expertise in:

  - How to give a professional self-introduction
  - Verbal/Non-verbal communication skills (Body Language)/ Para-Verbal communication
  - Professional Attire / Power Dressing
  - Etiquettes
  - Social Etiquettes
  - Business Etiquettes
  - Digital/Telephonic Etiquettes
  - Email Etiquettes

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Foundation Expert Certification
Course: B.Tech. (All Branches)
Semester: 2nd Year 4th Semester (2021-22)
Duration: 30 Hours

For the even semester CSDC provides the certification of 'Corporate Foundation Expert' for students of B.Tech. 2nd year even semester across all branches. Students showed dedication and commitment towards the program and were awarded with 'Certificate of Completion'.

Many outstanding students were awarded A+/A grades for their meticulous progress. 'Certificate of Appreciation' was also awarded to some phenomenal students in the category of *Student of Year, Student of Semester, Mr. & Ms. Classy*, and *Prime Presence*.

The aim of this course is to provide value addition to the students as far as communication skills or spoken English is concerned. The course reinforces the grammar concepts into the minds of the students, thereby aiming to eliminate the mistakes committed by them in its usage. The course has an interesting and useful module including activities and worksheets along with revision of theory.

This is useful for the students not only in their Group Discussion and Personal Interview stage but also for the verbal assessment of company entrance exams for corporate selection processes.

The following topics are broadly covered here-

- **Language Skills include:**
  - Professional Comprehensive Skills
  - Punctuation & Capitalisation
  - Tips for Effective Reading
  - Reading with Expressions
  - Tips for Effective Writing
  - Formal Letter Writing
  - Application Writing
  - Ways to Initiate Conversation
  - Asking Questions/ Opinions
  - Voice & Accent
  - English for Everyday living
  - Advance Vocabulary

- **Soft Skills include:**
  - Team Building,
  - Perception of Human Conduct

Corporate Skill Development Centre CSDC

Evaluation & Feedback:

Written assessments are taken periodically to ensure seriousness of students in the modules. Speaking exercises are done by students to make them overcome their stage fear and hesitation. The major objective of CSDC training is to boost confidence in every student who is a part of it. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Transition Expert Certification
Course: B.Tech. (All Branches)
Semester: 3rd Year 6th Semester (2021-22)
Duration: 30 Hours

CSDC announces a very beneficial training with certification called Transition Expert for all the B.Tech branches of 3rd year. CSDC introduces modules for training students on stage management, effective communication, effective presentation skills, how to make a PPT(Lab) and creative presentation delivery.

Apart from this the students are trained on facing GDs and interviews. This module is extremely important as it helps the student gain confidence on facing the above.

Transition Expert has an essential Module, which includes Soft Skill knowledge about:

- Affirmative Transformation
- Presentation Skills
- Resume Writing
- Know How of Group Discussion
- Basic Interview Skills

With the training of CSDC, students get prepared, focused and confident for their placements

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Progression Learner Certification
Course: MCA
Semester: 2nd Yr 3rd Sem (2021-22)
Duration: 30 Hours

CSDC plays a very significant role in 2nd Yr, 3rd semester. CSDC modules focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them.

The certification is known as 'Corporate Progression Learner Certification', which is provided to every student in addition to their academic certifications. Progression Learner has its very informative Module, which includes:

- Soft Skills expertise in:

  - How to give a professional Self-Introduction
  - Verbal/Non-verbal communication skills (Body Language)/ Para-Verbal communication
  - Professional Attire / Power Dressing
  - Etiquettes
  - Social Etiquettes
  - Business Etiquettes
  - Digital/Telephonic Etiquettes
  - Email Etiquettes

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Progression Learner Certification
Course: MBA
Semester: 1st Yr 1st Sem (2021-22)
Duration: 30 Hours

CSDC plays a very significant role in 1st Yr, 1st semester. CSDC modules focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them.

The certification is known as 'Corporate Progression Learner Certification', which is provided to every student in addition to their academic certifications. Progression Learner has its very informative Module, which includes:

- Soft Skills expertise in:
  - How to give a professional Self-Introduction
  - Verbal/Non-verbal communication skills (Body Language)/ Para-Verbal communication
  - Professional Attire / Power Dressing
  - Etiquettes
  - Social Etiquettes
  - Business Etiquettes
  - Digital/Telephonic Etiquettes
  - Email Etiquettes

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Progression Expert Certification
Course: MCA
Semester: 2nd Yr 4th Sem (2021-22)
Duration: 30 Hours

CSDC announces a very beneficial training with certification called 'Progression Expert' for all the MCA 2nd Yr 4th Sem. CSDC introduces modules for training students on stage management, effective communication, effective presentation skills, how to make a PPT and creative presentation delivery.

Apart from this the students are trained on facing GDs and interviews. This module is extremely important as it helps the student gain confidence on facing the above.

Progression Expert has an essential module, which includes Soft Skill knowledge about:

- Affirmative Transformation
- Presentation Skills
- Resume Writing
- Know How of Group Discussion
- Basic Interview Skills

With the training of CSDC, students get prepared, focused and confident for their placements.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

SUMMARY REPORT

Name of the Program: Corporate Progression Expert Certification
Course: MBA
Semester: 1st Yr 2nd Sem (2021-22)
Duration: 30 Hours

CSDC announces a very beneficial training with certification called 'Progression Expert' for all the MBA 1st Yr 2nd Sem. CSDC introduces modules for training students on stage management, effective communication, effective presentation skills, how to make a PPT and creative presentation delivery.

Apart from this the students are trained on facing GDs and interviews. This module is extremely important as it helps the student gain confidence on facing the above.

Progression Expert has an essential module, which includes Soft Skill knowledge about:

- Affirmative Transformation
- Presentation Skills
- Resume Writing
- Know How of Group Discussion
- Basic Interview Skills

With the training of CSDC, students get prepared, focused and confident for their placements.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

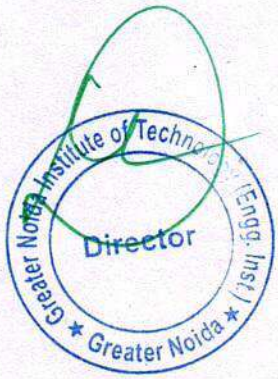
SUMMARY REPORT

Name of the Program: Corporate Conduit Certification
Course: MCA
Semester: 3rd Yr 5th Sem (2021-22)
Duration: 30 Hours

CSDC presents a very essential training course for all the final year batches called "CONDUIT CERTIFICATION". Its basic criteria is to mould or get all the students readily prepared for their placement. And, CSDC, particularly, takes the responsibility of each and every student who is part of it that they must achieve the opportunity available to them.

The modules included here are meticulously and thoughtfully designed to train students on the actual corporate day to day situations and the handling of the same, thus ensuring corporate readiness of the candidate. Conduit Learner certification has a very innovative Module which includes Soft Skills perfection through:

- Motivational & Self –Introduction
- Impression Management
- Stress Management
- Client Handling
- Professional Etiquettes including Power Dressing
- Resume Writing
- Conversational Mannerism
- Effective Presenter & Team Player
- Bridging the gap between the Candidate & HR
- Effective Interview Skills:
    - *Mock GD
    - * Mock PI
    - * Telephonic
    - * Skype/MST/google Meet



CSDC certification is a beneficial step towards better Education. CSDC modules focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them. CSDC presents a very effective and knowledgeable training for the final year students of MCA. This is the final bridging course between the academia and the corporate. CSDC, therefore plays a vital role in preparing the students for inhaling best career options for themselves.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).

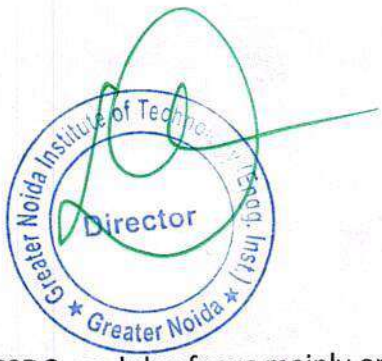
SUMMARY REPORT

Name of the Program: Corporate Conduit Certification
Course: MBA
Semester: 2nd Yr 3rd Sem (2021-22)
Duration: 30 Hours

CSDC presents a very essential training course for all the final year batches called "CONDUIT CERTIFICATION". Its basic criteria is to mould or get all the students readily prepared for their placement. And, CSDC, particularly, takes the responsibility of each and every student who is part of it that they must achieve the opportunity available to them.

The modules included here are meticulously and thoughtfully designed to train students on the actual corporate day to day situations and the handling of the same, thus ensuring corporate readiness of the candidate. Conduit Learner certification has a very innovative Module which includes Soft Skills perfection through:

- Motivational & Self –Introduction
- Impression Management
- Stress Management
- Client Handling
- Professional Etiquettes including Power Dressing
- Resume Writing
- Conversational Mannerism
- Effective Presenter & Team Player
- Bridging the gap between the Candidate & HR
- Effective Interview Skills:
    - *Mock GD
    - * Mock PI
    - * Telephonic
    - * Skype/MST/google Meet



CSDC certification is a beneficial step towards better Education. CSDC modules focus mainly on grooming students on the Soft skill part of their personality. These skills are helpful in acclimatising oneself in the corporate environment. This is a very important initiative for the learning of the students as it provides the basic behavioural concrete to them. CSDC presents a very effective and knowledgeable training for the final year students of MCA. This is the final bridging course between the academia and the corporate. CSDC, therefore plays a vital role in preparing the students for inhaling best career options for themselves.

Evaluation & Feedback:

Periodic Assessments are taken as a part of their curriculum to ensure their level of involvement for the program. The sessions provide a mix of theory with examples from practical life and presentations, role plays and other activities mapped with the modules. The students taking CSDC training are graded based on their performance in Attendance, Assignments and Module Tests.

As we are well aware that feedback is one of the major components of any Training & Development system and so, we believe in a transparent feedback methodology for the overall enrichment in the Training & Development pedagogies.

We design a feedback form on different parameters including Communication Skills, Organizational Skills, Presentation Skills, and Facilitation Skills. These forms are circulated across all branches keeping it anonymous to encourage a fair feedback system both online/offline (whichever applicable).
