COURSE No. & TITLE:

Expert Session on Profile building in association with BYJU's career labs

PARTICIPANTS:

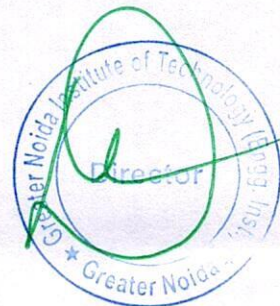

3rd Year Students & Faculty members of departments, B.Tech ECE.

OBJECTIVES:

- To enhance the knowledge about various recent technologies , innovations and advancements in industries To motivate the students for the research and designing innovative projects.
- To improve the participants skill and knowledge pertaining to advancements in Embedded Systems hardware, and processing elements.

Expert:

Mr. Abhishek Gupta,

Report

Event Name: Profile Building in association with BYJU's Lab

Date: 20 July

Resource Person: Mr. Abhishek Gupta

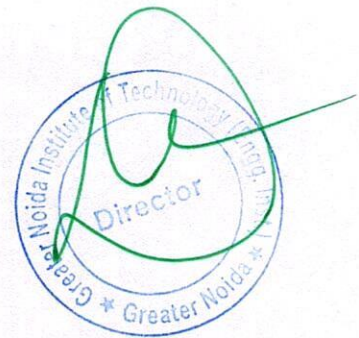

Electronics & Communication engineering department hosted a satellite webinar in collaboration with Byju's-career Labs exclusively for 3rd year Students.

Co-founder of a billion dollar company (Byju's) and ISB Hyderabad Alumni talked about the effect of a COVID19 on career of students. There was an enlighten session on opportunities that come across and change the entire way and how one should look at what's next after engineering.

Highlights of the session were:

- 1) How to get into Fortune 500 Companies
- 2) Profile Building for Higher Education
- 3) Technical Profile boost for Placements
- 4) Top Masters with 100% Scholarships

Dr. Shelly Garg motivated students to carry out their post graduate studies in their engineering studies. Students found it a very informative session.

Report

Event Name: Building Automation System

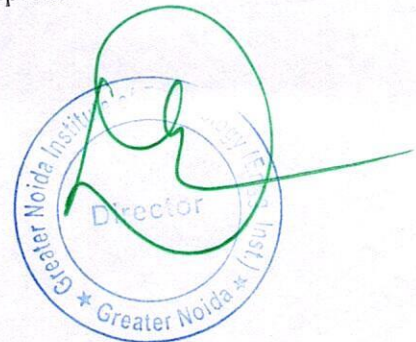

Date: 27-7-2020

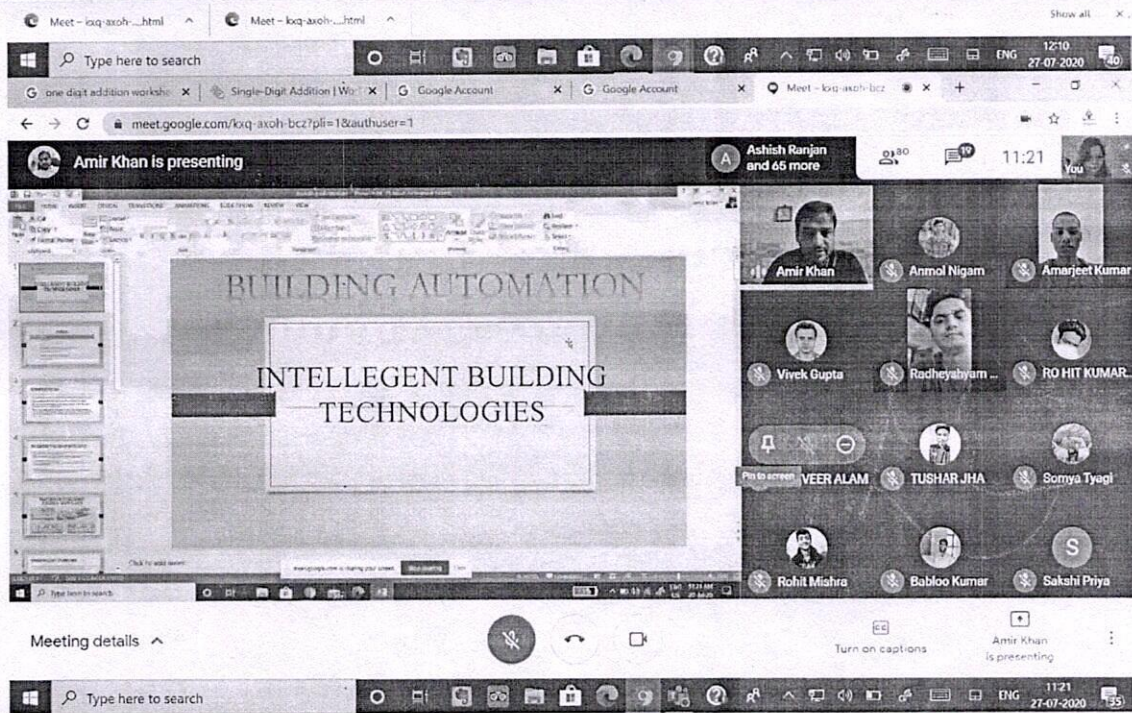

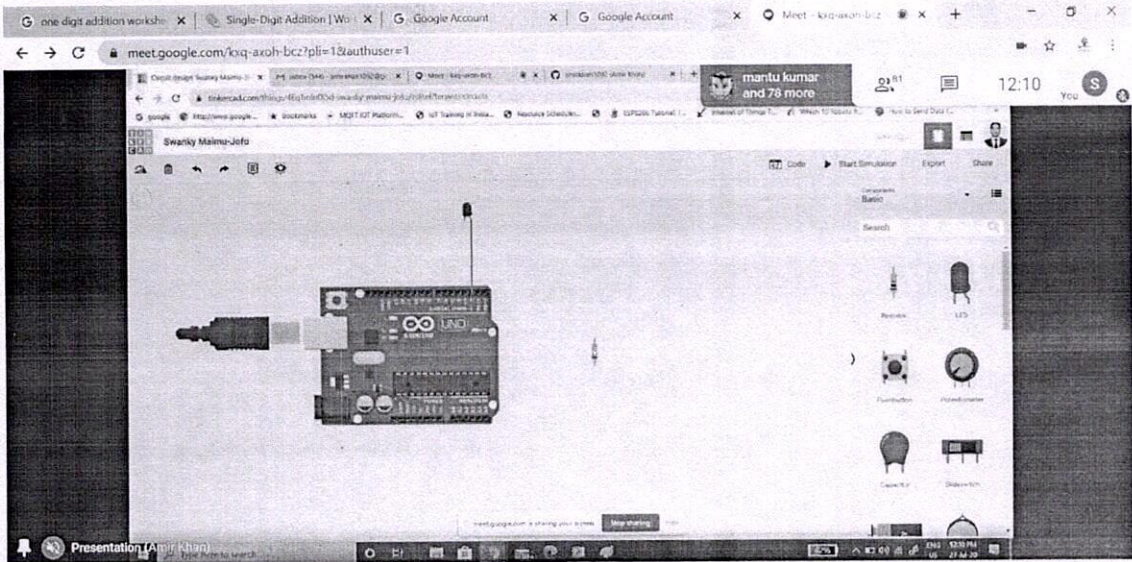

Resource Person: Mr. Aamir Khan, senior Technical trainer

A building automation system is designed to be convenient, increase safety, and save energy. Keeping this in view, Department of Electronics and Communication Engineering organized an online one day workshop to strengthen students on upcoming technologies. Mr. Aamir Khan, senior Technical trainer took the workshop along with Dr. Shelly Garg.

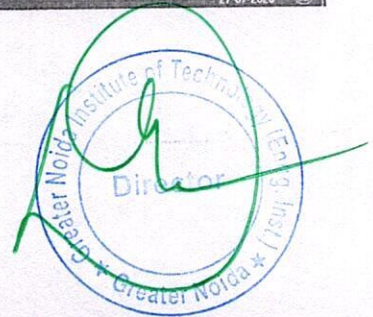

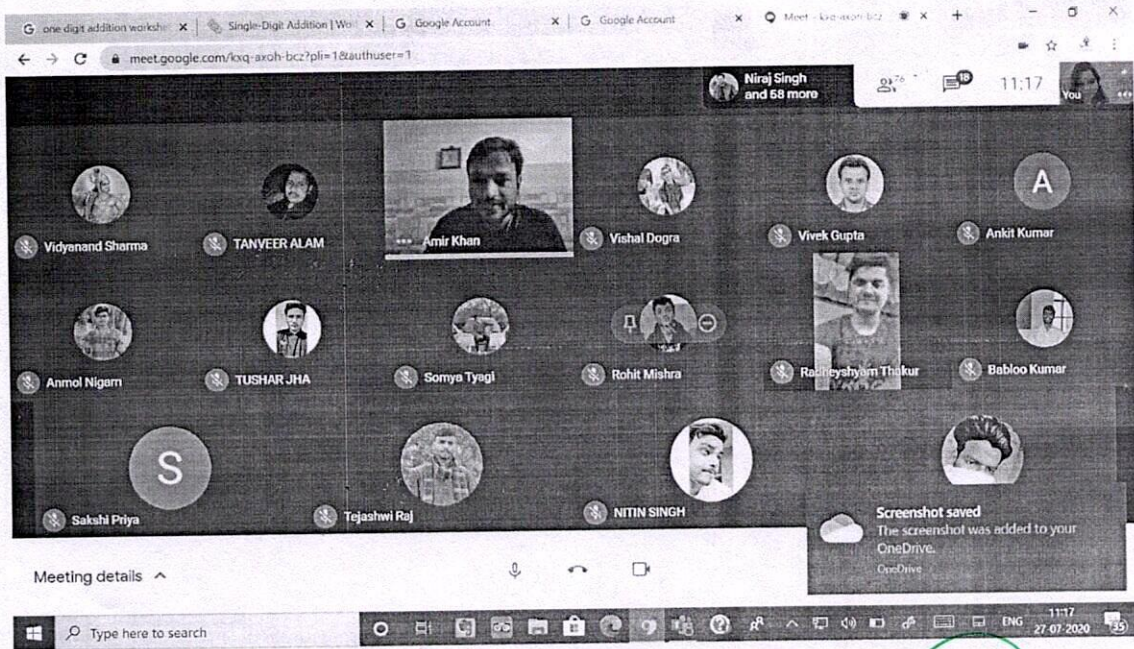

Workshop could bring an insight of what had been futuristic has become a reality today. Wireless Lifestyle solutions are attracting the attention of researchers now a days. Smart building designs are also getting popular as right from the intensity of the lights to who gains access to the building at what time, the user can automate anything. Temperature conditions, humidity paramaters etc.

It was learnt that in smart building technology, all the devices are connected to the main gateway panel over the internet in order to allow the user to access and control the use of the smart devices. Workshop was highly appreciated by all the participants.

ECE department organized a session on IOT in electric vehicles with Mr. Kartikey Anand, alumni of the department on 19.3.2021 from 11.30 am onwards Director, Dr. Dhiraj Gupta inaugurated the program and enlightened everyone with his knowledgeable words. Mr.Kartikey took a very energetic interactive session and focused on new evolving technologies in electric vehicles. He compared the various battery components available and shared challenges available for start ups.

He also motivated students to work on open source resources to have in depth knowledge. the session earned lot of appreciation from students as it was highly inspirational. The vehicle transport system is rapidly increasing towards a sustainable electric vehicle population. Cloud-based monitoring and management of the smart charger station for electric vehicles (EVs) for the security-driven IoT enabled direct current (DC) fast chargers is an important aspect in EVs. Keeping in view the importance and need of this emerging topic an interactive seminar is being organized by department of Electronics and communication engineering with Industry Expert.

COURSE No. & TITLE:
Expert talk on Emerging Trends and Innovations in Industries

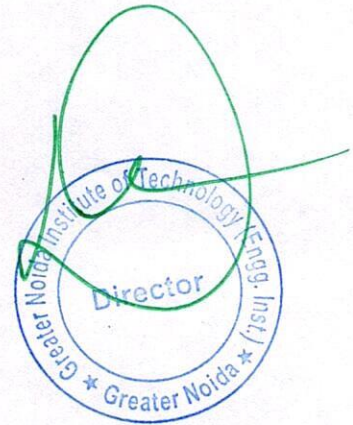

PARTICIPANTS:
2nd3rd & Final Year Students & Faculty members of departments,
B.TechECE.

OBJECTIVES:

- To enhance the knowledge about various recent technologies , innovations and advancements in industries To motivate the students for the research and designing innovative projects.
- To give an overview of Electric vehicles which are an important step towards the goal of achieving 100% clean energy and zero emissions

Expert:

Mr. Arjun Singh,
Sr. Manager , Samsung Research Institute , Noida

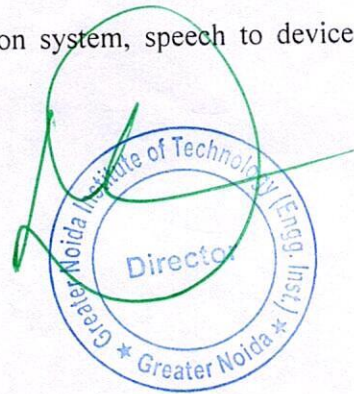

Report

Event Name: Emerging Trends and Innovations in Industries

Date: 20 March, 2021

Resource Person: Mr. Arjun Singh

Electronics and Communication Engineering Department organized a Seminar on Emerging Trends and Innovations in Industries through Mr. Arjun Singh, Industry Expert from Samsung Research Institute, Noida on 20.3.2021(10.30 am onwards). About 95 students participated in the event. He discussed how Industries are transitioning to implement industry 4.0 concepts, with a focus on device connectivity and control. Industrial companies and factories are exploring the use of connectivity technologies such as the industrial internet of things (IIoT) and 5G, as well as artificial intelligence (AI), advanced analytics, and robotics. He explained that AI and ML has already penetrated in our day to day lives and we all need to understand the development part. He focused on how the thousands of startups and scaleups are transforming the future of the industrial workplace. He focused on the need of commercial products like satellite clinic, live facial recognition system, speech to device detection etc.

Report

Event Name: How To Plan For Start –Up & Legal And Ethical Steps

Date: 30-03-2021

Resource Person: Mr. Abhishek Jain

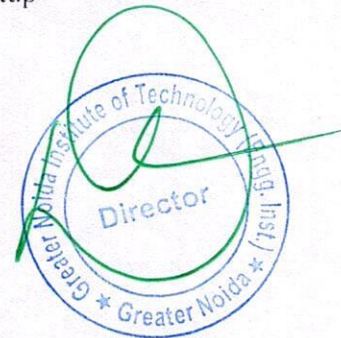

Electronics And Communication Engineering Department Organized An Expert Session on How To Plan For Start –Up & Legal And Ethical Steps on 30.3.2021. The focus of the talk was to highlight that Startups may be small companies but they can play a significant role in economic growth. They create more jobs which means more employment, and more employment means an improved economy. Not only that, startups can also contribute to economic dynamism by spurring innovation and injecting competition.

Mr. Abhishek Jain enlightened the knowledge on how one can convert prototype into a startup. He also explained about the various constraints in the process of converting prototype into a startup like technological constraints, economical constraints, and political constraints etc. He also explained about the various stages of validation and in startups along with chronologies of startups.

Students participated with full enthusiasm and appreciated the speaker of the session.

OUTCOMES

1. To motivate students to work on their ideas and convert them into live projects.
To understand practical aspects of converting a prototype into a startup

Activity Report

DEPARTMENT: Computer Science & Engineering
ACTIVITY: Webinar On "BLOCKCHAIN"
GUEST SPEAKER: Mr. Ishmeet Singh, India Head, Experfy Inc.
HELD ON: 15th December, 2020
VENUE: Greater Noida Institute of Technology, Greater Noida
ATTENDED BY: Faculty Members and Students of Department of CSE Attended the Session.
PLATFORM USED: Online using Microsoft Teams.
EVENT COORDINATOR: Dr. Rajdev Tiwari (Head, Dept. of CSE), Ashwini Kumar Verma

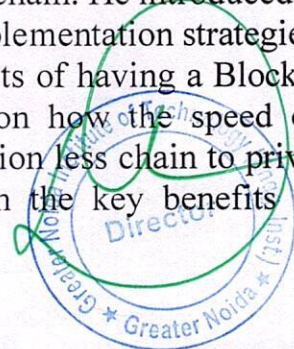

Objective- To impart technical understanding of DLT, Blockchain Technology, Tools, and implementation strategies.

Purpose- Thrust behind organizing this event was to give an insight into the BCT, so that students would be able to explore and realize the enormous potential of Blockchain in various fields.

Brief Report: -

Department of Computer Science & Engg, GNIOT, in collaboration with ICT Academy, organized an Exclusive Virtual Power Seminar on "BLOCKCHAIN" on 15th December, 2020. Director of the Institute, Dr. Rajesh Goel, gave the Inaugural Address, and shared his knowledge on blockchain. Head of the Computer Science & Engg. Department, Dr. Rajdev Tiwari welcomed the dignitaries, guest and participants, and highlighted the issues concerning Blockchain. Dr. Tiwari himself is taking Blockchain Architecture for the students.

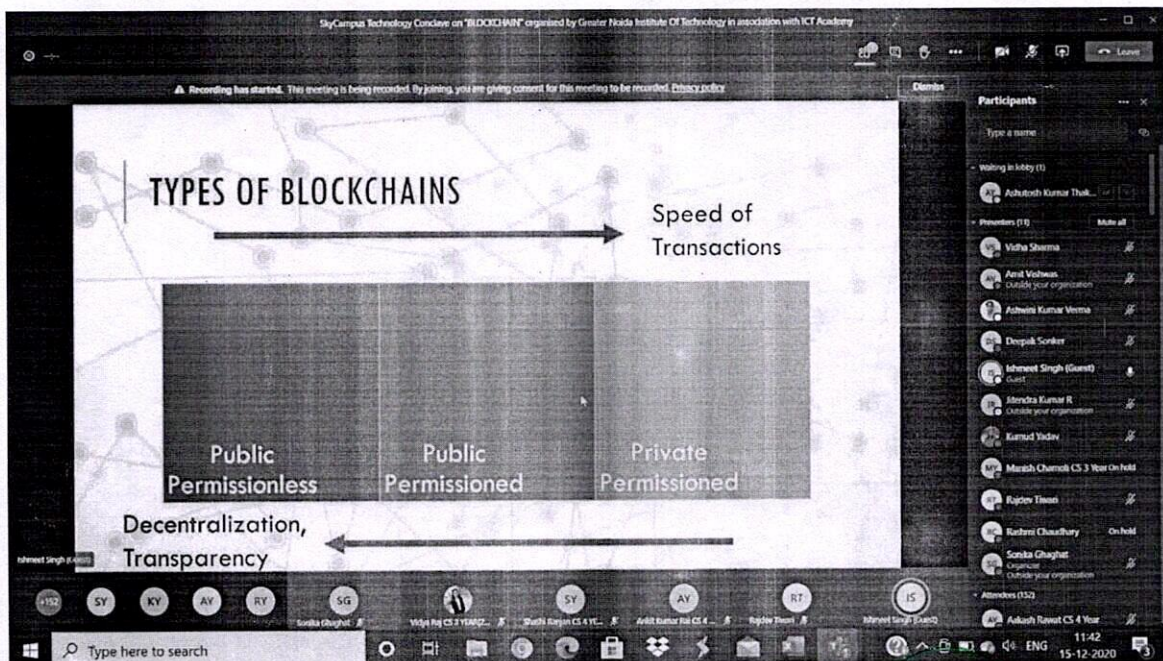

Expert of the event Mr. Ishmeet Singh is a Blockchain specialist and a seasoned financial technology professional. He is a faculty for the Institute of Chartered Accountants of India's (ICAI) Executive Development Program on DLT and Blockchain. He introduced students to the landscape of Blockchain technology its applications and implementation strategies. Expert gave a brief insight into the types of block chains and the benefits of having a Blockchain over the existing centralized trust based systems. He elaborated on how the speed of transaction, transparency and decentralization vary from public permission less chain to private and public permissioned block chain. Students were also briefed on the key benefits of Blockchain

technology to businesses like speed and efficiency reduction of risk, auditability, cost reduction, automation etc. Mr.Ishmeet asked students to start with Ethereum and Hyperledger fabric. He also emphasized on the necessity to learn solidity and IBM hyperledger. Overall the session was beneficial to the participants.

Outcomes: -

Students were introduced to the Blockchain Technology and the enormous potential it carries with it. They got the knowledge on how to start with BCT and which platform to use like: Ethereum to experiment with smart contracts and hyperledger to implement private permissioned block chains.

Activity Report

DEPARTMENT	Computer Science & Engineering
ACTIVITY	Webinar On "ARTIFICIAL INTELLIGENCE"
GUEST SPEAKER	Mr. Ram Kumar Balasubramanyam
HELD ON	16 th December, 2020
VENUE	Greater Noida Institute of Technology, Greater Noida
ATTENDED BY	Faculty Members and Students of Department of CSE Attended the Session.
PLATFORM USED	Online using Microsoft Teams.
EVENT COORDINATOR	Dr. Rajdev Tiwari (Head, Dept. of CSE)

Objective- To impart technical understanding of AI , Machine Learning, related tools and algorithms.

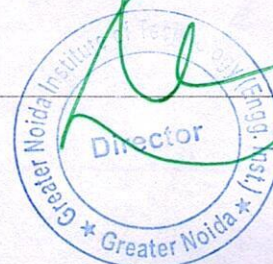

Purpose- Thrust behind organizing this event was to give an insight into Artificial Intelligence and machine learning, so that students would be able to explore how research in AI has led to the improvement in expert systems , data mining, logistics , medical diagnosis etc.

Brief Report: -

Department of Computer Science & Engg, GNIOT, in collaboration with ICT Academy, organized an Exclusive Virtual Power Seminar on "ARTIFICIAL INTELLIGENCE" on 16th December, 2020. Director of the Institute, Dr. Rajesh Goel, gave the Inaugural Address, and shared his knowledge on blockchain. Head of the Computer Science & Engg. Department, Dr. Rajdev Tiwari welcomed the dignitaries, guest and participants, and set the stage with the right words and background details for the event to start with.

Expert Ramkumar Balasubramanyam, is a consultant of Digital Transformation, AI and Automation. He was previously associated with Paytm as Vice President, Platform Engineering and Associate director at Accenture. Mr. Balasubramanyam has five patents in his name.

He focused his talk on Machine learning fundamentals , technology and tools used and the application areas where it is being aggressively used . Mr Balasubramanyam explained the journey of AI from classical learning to deep learning techniques. Application of Machine Learning was demonstrated using multiple examples like ML techniques used for cyber security , Map Navigation and failure prediction was shown for the same. He discussed the role of AI in autonomous cars and the reasons why its practical implementation isn't feasible.

Session was quite interactive with students asking numerous questions on Machine learning and its applicability. Webinar was attended by around 200 students from Department of Computer Science & Engineering. Overall the session was beneficial to the participants.

Outcomes: -

Students were introduced to the Artificial Intelligence, Machine Learning Technology, Neural Networks and the enormous potential they carry with them. They got the knowledge on various algorithms and their applicability.

Machine learning Example - Map Navigation

Real time traffic
Vehicle speed
Distance

Machine Learning algorithms

Fastest Route

Machine learning Example - Failure Prediction

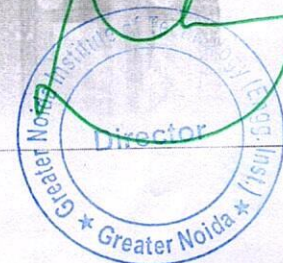

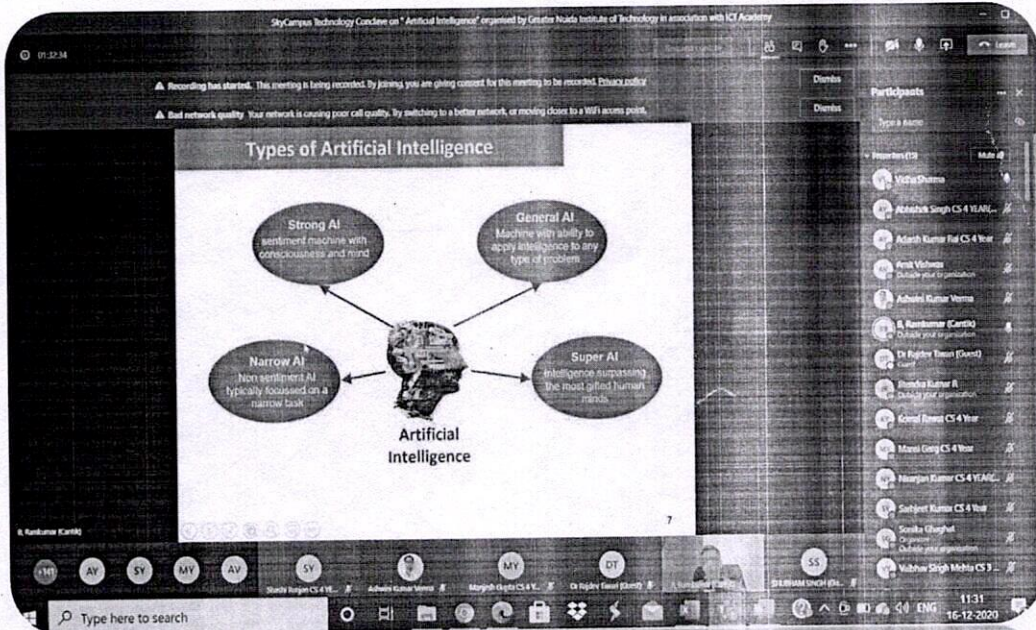

TASK T	PERFORMANCE P	EXPERIENCE E
Predict the time of next failure	Whether the vehicle fails close to the predicted time	If we have large history of vehicles usage data, the better the accuracy of prediction.

ACTIVITY	Webinar On "BIG DATA ANALYTICS"
GUEST SPEAKER	Mr. ANUJ TRIPATHI, DIRECTOR , ENTERPRISE BUSINESS DEVELOPMENT, AFFLE
HELD ON	17 th December, 2020
VENUE	Greater Noida Institute of Technology, Greater Noida
ATTENDED BY	Faculty Members and Students of Department of CSE attended the session.
PLATFORM USED	Online using Microsoft Teams.
EVENT COORDINATOR	Dr.Rajdev Tiwari(Head, Dept. of CSE)

Objective- To impart a basic understanding of Big Data, its impact on business and how it helps in framing marketing strategies along with its deployment and relevant tools.

Purpose- Thrust behind organizing this event was to give an insight into Big Data Analytics, sources of data, so that students would be able to understand the complexity involved and importance of analytics in finding hidden patterns inside data.

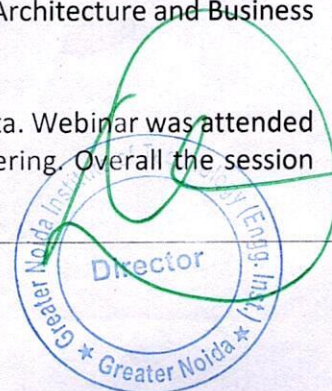

Brief Report: -

Department of Computer Science & Engg, GNIOT, in collaboration with ICT Academy, organized an Exclusive Virtual Power Seminar on "BIG DATA ANALYTICS", on 17th December, 2020. Director of the Institute, Dr. Rajesh Goel, gave the Inaugural Address, Sir welcomed the guest and participants, and shared his knowledge on Big Data.

Expert Mr.Anuj Tripathi, is Director-Enterprise Business Development which works in sync with Affle 2.0 strategy, the focus is on the platform-based IT solutions that enable thriving startups & giant enterprises to solve complex business challenges. He is a Six Sigma Practitioner.

Mr. Anuj Tripathi emphasized on How big the data is! Objectives of Big Data Analytics, its impact on business maximization, Architecture etc. He also elaborated on how a Big Data Analytics Project is deployed on Cloud (AWS) and on Premise. Mr. Tripathi explained the steps involved in data preparation and preprocessing. He described the role of Data Analyst and Data Scientist, also opportunities with the big data in the field of Cyber Security, AI, Enterprise Architecture and Business Analysis.

Session was interactive with students asking all sorts of questions on Big Data. Webinar was attended by around 150 students from Department of Computer Science & Engineering. Overall the session was informative for the participants.

Impact of Big Data

- Easier Commutes**: Big data streamlines traffic using data from GPS systems. Traffic lights now react to traffic conditions, weather & Accidents. (06)
- Advance Healthcare**: Big data is used to predict where outbreaks of potentially epidemic viruses will occur. (01)
- Smartphones**: Smartphones users utilize big data when asking for directions & verbally asking their phone questions. (05)
- Presidential Campaigns**: Statistician Nate Silver used big data to predict the outcome of the US presidential election. (02)
- Sports Predictions**: Big data was used to predict the US would win 108 medals in the summer olympics. They won 104. (04)
- Personalized Advertising**: Big data is used to recommend purchases & personalized ads. (03)

World Sight Day

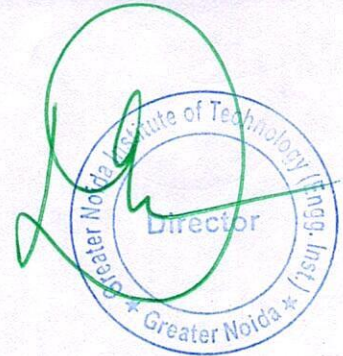

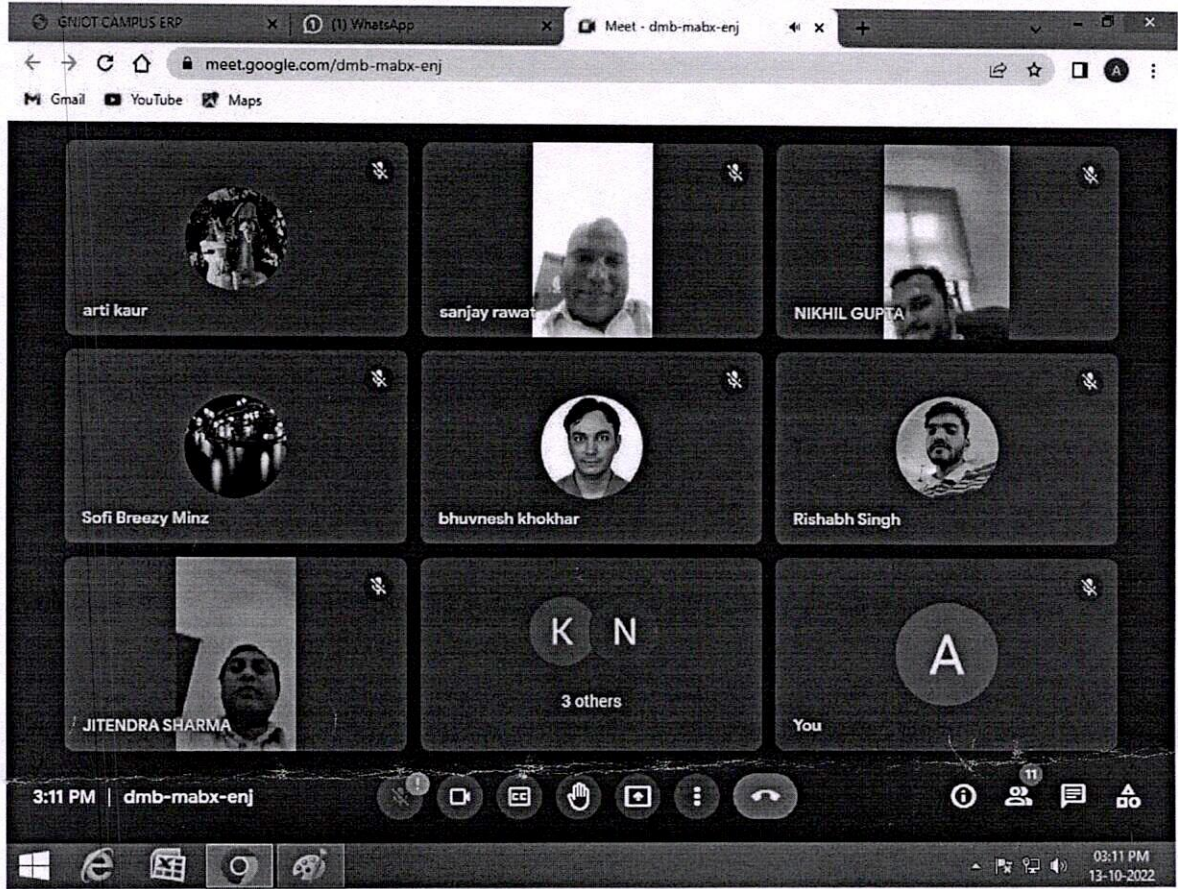

Date: 08.10.2020

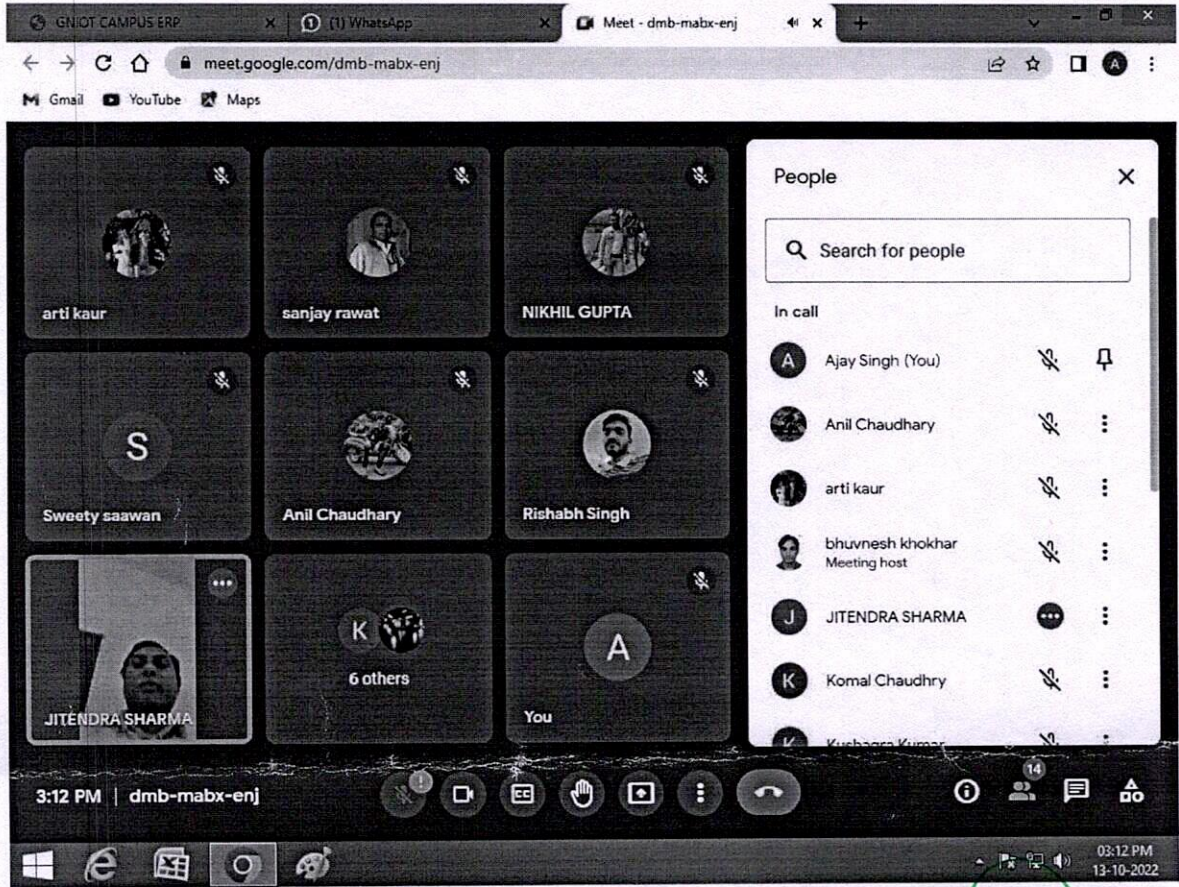

World Sight Day is an International Day of Awareness, held annually on the second Thursday of October. This day is a reminder to you, to love your eyes. Eye health impacts education, employment, quality of life, poverty and so many other Sustainable Development Goals. The Electrical Engineering Department on 08.10.2020 conducted a webinar on the occasion of the World Sight Day. Dr. Neeraj Kumar, an ophthalmologist shared his valuable knowledge regarding how to take care of our eyes. Students of EE and all the faculty members were a part of the webinar. Moderator of the event was Mr. BhuvneshKhokhar, Asst. Prof., EE dept.

Outcome:

The students were able to know about various eye ailments and how to protect their eyes in day to day life. They also learnt about the importance of the world sight day.

FUTURE SCENARIO AFTER ENGINEERING

Date: 12.10.2020

The Electrical Engineering (EE) department successfully organized an alumni talk on **Future Scenario After Engineering** on 12.10.2020. Mr. Arun Rana, an alumnus of 2011 batch of the department was the guest speaker of the event. Mr. Rana is presently working as Director in ASR Electomech Pvt. Ltd. He discussed a lot of probable aspects post B. Tech. that principally include: i) Entrepreneurship, ii) Higher studies, iii) Harnessing the solar energy, iv) Concept of net metering, and v) Emergence of electric vehicles. Faculty members and students of all years of the EE department participated in the talk with full enthusiasm and found it to very informative and interactive as well. Moderator of the event was Mr. Sushil Singh, Assistant Professor, EE.

Outcome:

The students learned about:

- i) Entrepreneurship,
- ii) Higher studies,
- iii) Harnessing the solar energy,
- iv) Concept of net metering,
- v) Emergence of electric vehicles.

“Prototype /Process Design and Development-
Prototyping”

11 MAY 2021

Organized by

Department of Civil Engineering
Greater Noida Institute of Technology, Greater Noida

Name of Event: Workshop on “Prototype /Process Design and Development- Prototyping”

Date of Event: 11th May, 2021

Organised by: Department of CE & ME in association with Institutions Innovation Council (an initiative of Ministry of Education), GNIOT

Event Moderator: Mr. Anuj Sharma

Guest Speaker: Dr Anuranjan Misra, Dean (R&D) GNIOT & Innovation ambassador, Ministry of Education, Govt. of India

Event Poster:

The poster features logos for GNIOT Group of Institutions, Institution's Innovation Council (Ministry of Education Initiative), and MSME (Ministry of Micro, Small & Medium Enterprises). The main text reads: CE & ME DEPARTMENT, In association with GNIOT -IIC (An Initiative of Ministry of Education Govt of INDIA), ORGANIZES WORKSHOP ON Prototype/ Process Design and Development Prototyping. A central image shows a group of people in a workshop setting. Below this, a speaker profile for Dr. Anuranjan Mishra, Innovation Ambassador, Ministry Of Education Govt. of India, is shown. A row of four smaller portraits identifies the organizers: (Prof.) Dr. Dhiraj Gupta (Director), Dr. R.K. Sharma (HOD (CE)), Dr. Iqwal Ahmed (HOD (ME)), and Mr. Anuj Sharma (IIC- Coordinator). The event details are: 11th, Wednesday, May, 2022, from 11:00 AM to 12:00 PM. The venue is Chanakya Block, Seminar Hall, GIMS. Social media icons for Facebook, YouTube, LinkedIn, Twitter, and Instagram are on the right. A vertical hashtag #EXPERTALK is on the left. The footer contains the address: Plot No. 7, Knowledge Park II, Greater Noida, (UP) 201306 | www.gniotgroup.edu.in | 1800-274-6969.

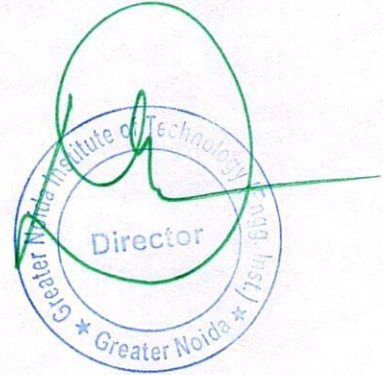

Participants: All Engineering Students & Faculty members

Objectives: The Workshop objective was to gain insights in a design thinking process to carry out some form of prototyping. This involves producing an early, inexpensive, and scaled down version of the product in order to reveal any problems with the current design. Prototyping offers designers the opportunity to bring their ideas to test the practicability of the current design, and to potentially investigate how a sample of users think and feel about a product. After completion of the workshop, participants are able to acquire more knowledge on prototyping.

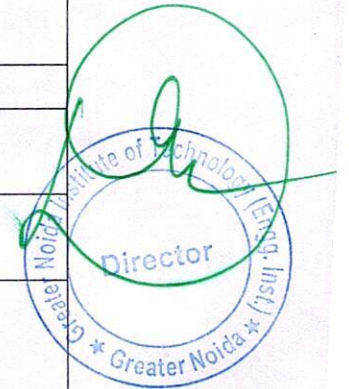

The Event was started with lighting of lamp in front of goddess Maa Saraswati by Dr Anuranjan Misra, Dean(R&D), Dr Rajeev Kumar, Dr. Iqbal Ahmad Khan (HOD, ME), Dr Rajesh Kumar Sharma, (HOD, CE). The Moderator of the event was Ms. Shreeja Kacker who had given brief introduction of the Speaker.

In the workshop, Dr. Anuranjan Misra had shown the presentation related to prototype and prototyping. He also pointed the objective of the prototyping for the industry, country and world. The Speaker has shared a brief insight related to how idea can be transformed into prototype, types of prototype etc with many live examples.

Event Description:

The seminar on the Application of Software, which was held on October 16, 2020, was successfully organized by the Department of Civil Engineering.

Software is highly well-versed by Dr. Tiwari. He talked about a variety of software and the needs of the industry today. He spoke on a variety of programs, including:

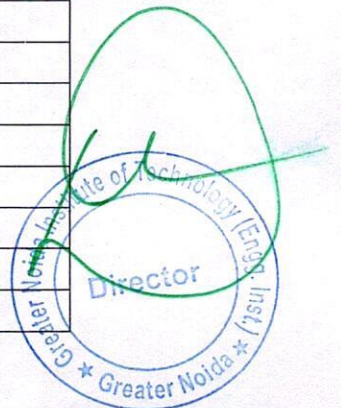

1. AutoCAD
2. Revit
3. Primavera
4. STAAD.PRO

Additionally, he talks to students about the various initiatives he is working on with STAAD.PRO. Everyone found the seminar to be extremely interesting and helpful.

Event Description:

The Department of Civil Engineering successfully organized the Expert Talk on **The Future of the Civil Engineering Profession** on **18.02.2021**.

Dr. Atthar Hussain (Associate Professor), from Ch. Brahman Prakash Government College, Jaffarpur. The Event started with the lighting of a lamp in front of the goddess Maa Saraswati. This session helped in enhancing interpersonal skills and Innovation techniques. This Session has broken monotony and sparked interest in innovation. Such activities develop a sense of responsibility among the students and make them confident to work in a learning environment.

About the activity:

Keeping in the mind, restriction imposed due to current COVID epidemic, Department of Mechanical Engineering organized ONE DAY WORKSHOP ON 3D MODELLING AND ANSYS ANALYSIS for the students and faculty members of the department. The sessions was strated with welcome note by the Prof. and HOD Dr. M.S. Rawat. After that session was conducted by the MR. MANISH CHANDRA GUPTA, DGM BHEL HYDERABAD. Mr. Gupta Explained the importance and basics of 3d Modelling and Ansys Analysis. The program was well coordinated by Mr. Kapil Kumar and Mr. G.S. BHati. The students participated actively in the workshop.

Brief Report: Department of mechanical engineering organized a webinar on “Best Career Paths: Mechanical Engineering” on 9th August, 2020. The webinar was quite successful mainly due to valuable suggestions and support provided by the College Management and Director Sir (Dr. Rajesh Goyal). The sessions were quite interactive and all participants attended very actively as a result of excellent efforts made by our moderator, Mr. Kapil Kumar. Session was inaugurated by Director GNIOT (Dr. Rajesh Goyal) with his introductory session. HOD, ME (Dr. M.S. Rawat) focused on the prerequisite qualities of the Mechanical Engineers that are to be desired by any industry. Then our invited guest Shri Sandeep Puri, Managing Director, Hyde Engineering & Consulting, covered the remaining session by disclosing the clandestine most secured future career paths during Covid-19 scenario and also interacted with the students through question and answer session.

Session was inaugurated by Director GNIOT (Dr. Rajesh Goyal) with his introductory session. HOD, ME (Dr. M.S. Rawat) focused on need of interdisciplinary skills for the mechanical engineers that are mandatory for survival in the future scenario. Then our invited guest Shri Sanjay Nagi, founder and CEO, Market Insight Consultants, covered the remaining session by explaining business process engineering, decision making, transactional analysis, psychometric tools and various other things for broadening the horizon of the students. The session was so much interesting that it went on upto 1.30PM. After completing his session Shri Nagi interacted with the students through question and answer session and clarified the points raised by our students. We are sure that with this session our students must have gained immensely and would be better prepared in facing their interviews.

Brief Report: Department of mechanical engineering organized a webinar on "Introduction to Gas Turbine" on 30th August, 2020. The webinar was quite successful mainly due to valuable suggestions and support provided by the College Management and Director Sir (Dr. Rajesh Goyal). The sessions were quite interactive and all participants attended very actively as a result of excellent efforts made by our moderator, Mr. Kapil Kumar. Session was inaugurated by Director GNIOT (Dr. Rajesh Goyal) with his introductory session. HOD, ME (Dr. M.S. Rawat) focused on the latest technology using in gas turbine that is combined cycle by which efficiency of the gas turbine can be increased more than 60%. Then our invited guest Shri Somnath Nandi, Deputy Manager, BHEL, R&D division, Hyderabad covered the all basics of Gas Turbine and its components. He elaborated how to increase the efficiency as well as reduction in emission in power plant by using the gas turbine. He also discussed aero derivative/ Industrial / heavy type gas turbine and composite materials using in the fabrication of gas turbine.

Brief Report: Today Department of mechanical engineering and Alumni Cell had organized a webinar on "Design concepts in Centrifugal pumps". The webinar was quite successful mainly due to valuable suggestions and support provided by the College Management and Director Sir (Dr. Rajesh Goyal). The sessions were quite interactive and all participants attended very actively as a result of excellent efforts made by our moderator, Mr. Kapil Kumar. Session was inaugurated by Director GNIOT (Dr. Rajesh Goyal) with his introductory session and our Dean Academic also addressed our students. Our invited guest Mr. Aditya Kashyap (Alumnus 2007-2011), Principle engineer, Air Liquide, New Delhi, explained the detailed working principle of centrifugal pumps. He also discussed about the performance curves as well as how to eliminate the cavitation in the pumps. In the last, he also interacted with the students through question and answer session.

Activity Report

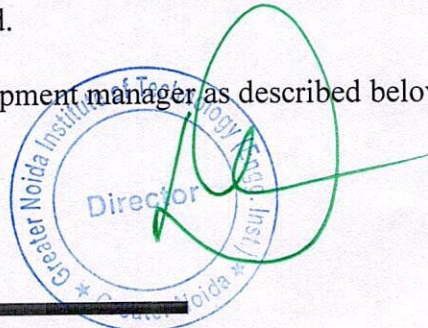

Department: -	MECHANICAL ENGINEERING.
Activity: -	WEBINAR ON “DESIGN THINKING APPROACH FOR PRODUCT DEVELOPMENT”
Guest Speaker: -	DR. AKSHAY DVIVEDI, (PROFESSOR, MECHANICAL & INDUSTRIAL ENGG.
DEPARTMENT	ASSOCIATE DEAN, CORPORATE INTERACTION, IIT ROORKEE)
Held On: -	5 th Dec., 2020
Venue: -	GREATER NOIDA INSTITUTE OF TECHNOLOGY, GREATER NOIDA
Attended by: -	ALL FACULTY MEMBERS AND MECHANICAL SECOND, THIRD AND FINAL YEAR STUDENTS.
Platform Used:-	ONLINE THROUGH GOOGLE MEET.
Event Coordinator:-	MR. GAGAN VARSHNEY, (ASSISTANT PROFESSOR, MECHANICAL DEPARTMENT, GNIOT)

Statement- Product development is a series of steps that includes the conceptualization, design, development and marketing of newly created or newly rebranded goods or services. Product development refers to all of the stages involved in bringing a product from concept or idea through market release and beyond. In other words, product development incorporates a product's entire journey.

Objective- The objective of product development is to cultivate, maintain and increase a company's market share by satisfying a consumer demand.

Role- There are many roles of product development manager as described below-

- Identifying a market need
- Quantifying the opportunity
- Conceptualizing the product
- Validating the solution

- Building the product roadmap
- Developing a minimum viable product (MVP)
- Releasing the MVP to users
- Ongoing iteration based on user feedback and strategic goals

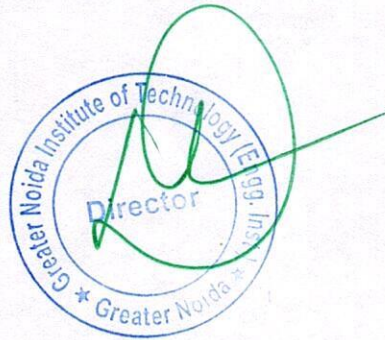

Purpose- The purpose of this webinar is to enhance the knowledge of students and to aware the trend of modern industries.

Brief Report: -

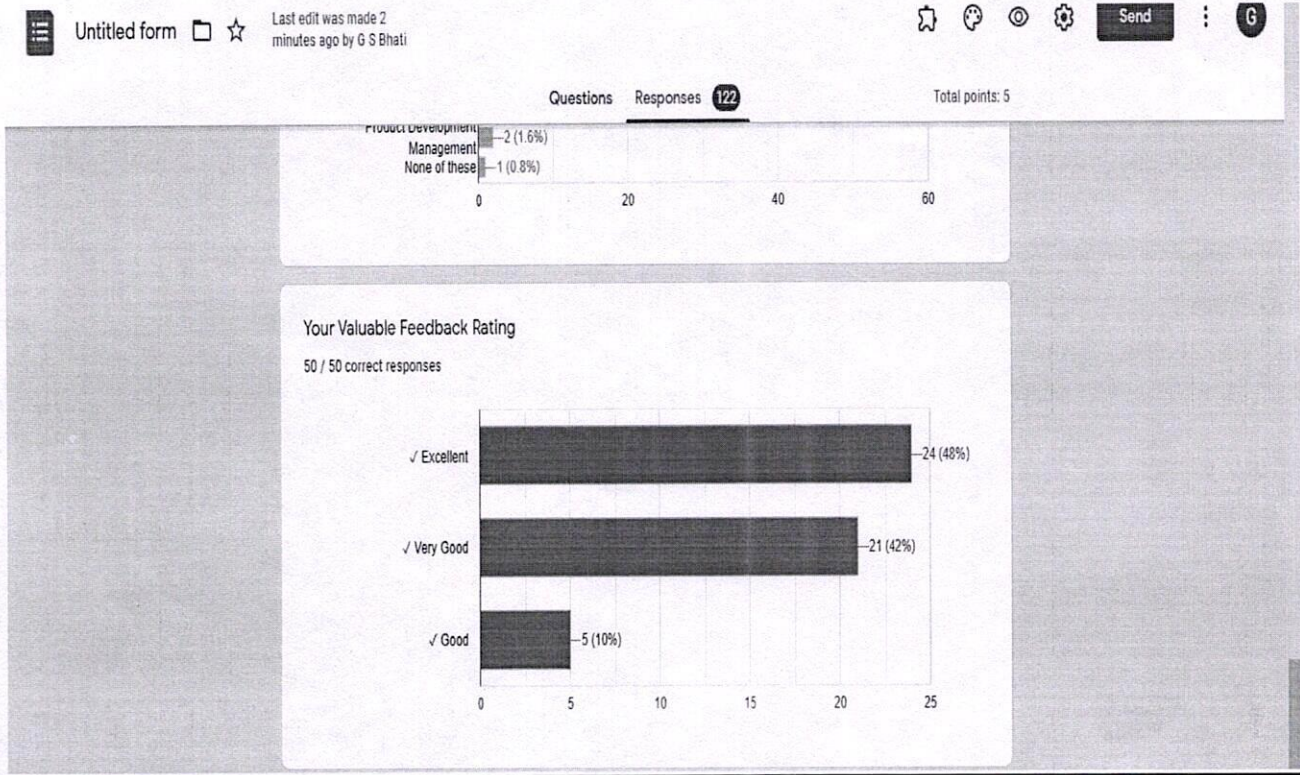

Department of Mechanical Engineering, GNIOT Greater Noida, organized a webinar on "**Design Thinking Approach For Product Development**" on 5th December, 2020. The session was inaugurated by Dr. Rajesh Goyal, Director, GNIOT Greater Noida, and Dr. Dhiraj Gupta, Dean Academics, GNIOT Greater Noida, with their introductory and inspiring speech. Dr. Alok Manas Dubey, Head of Mechanical Department, shared his knowledge and experiences with students.

The Speaker of this webinar was Dr. Akshay Dvivedi, (Professor, Mechanical & Industrial Engineering Department and Associate Dean, Corporate Interaction, IIT Roorkee). Dr. Akshay Dvivedi introduced and overviewed the product development and its present and future scenario. He demonstrated the scope of product development in modern medical industries. He guided the students for the future trends and applications of product development.

Dr. Dvivedi has enlightened the knowledge on ideate mode, prototype mode, ergo-dynamics, design aspects and constraints. He has connected the mechanical engineering field with the research on medical equipment. He demonstrated the various stages of designing and applications of the Hydro-dissection device which is patented by him. The students participated with full enthusiasm. They got the knowledge, inspiration and motivation from the speaker of the session. The moderator of this webinar was Mr. Syed Qaisar Husain Rizvi.

Empathize

If no then why?

- Harmful for the surgeon's hand
- Requires generation of very high pressures through a simple 10 ml hypodermic syringe !!!!!
- Fatigue & pain
- Repeated stress and injury reducing accuracy of the skill

Median nerve is compressed at the wrist, resulting in numbness or pain

On pressing the lever the load arm moves forwards. Here, the longer effort arm moves a long distance and the shorter load arm moves a shorter distance. Every completion of one arc movement pushes around 1 ml fluid into the tissues

Final Device

- Sterilizable
- Easy syringe replacement
- Easy access and improved visibility
- Ergonomically designed
- Smooth and jerk free injection using a combination of motor and lead screw along with slider
- Automatic/ Powered injection using electronic control
- Precise control to change the flow rate of injection using preloaded program on the microcontroller
- Adaptive feedback control using a combination of microcontroller and sensor
- Easy handling
- Monitoring and recording of live data
